Russia's Turn to the East Helge Blakkisrud, Elana Wilson Rowe, 2017-12-29 This book is open access under a CC BY license This book explores if and how Russian policies towards the Far East region of the country and East Asia more broadly have changed since the onset of the Ukraine crisis and Russia's annexation of Crimea Following the 2014 annexation and the subsequent enactment of a sanctions regime against the country the Kremlin has emphasized the eastern vector in its external relations But to what extent has Russia's pivot to the East intensified or changed in nature domestically and internationally since the onset of the current crisis in relations with the West Rather than taking the declared pivot as a fact and exploring the consequences of it the contributors to this volume explore whether a pivot has indeed happened or if what we see today is the continuation of longer duration trends concerns and ambitions

Russia's Own Orient Vera Tolz, 2011-02-10 Russia's own Orient examines how intellectuals in early twentieth century Russia offered a new and radical critique of the ways in which Oriental cultures were understood at the time Out of the ferment of revolution and war a group of scholars in St Petersburg articulated fresh ideas about the relationship between power and knowledge and about Europe and Asia as mere political and cultural constructs Their ideas anticipated the work of Edward Said and post colonial scholarship by half a century The similarities between the two groups were in fact

genealogical Said was indebted via Arab intellectuals of the 1960s who studied in the Soviet Union to the revisionist ideas of Russian Orientologists of the fin de siècle. But why did this body of Russian scholarship of the early twentieth century turn out to be so innovative? Should we agree with a popular claim of the Russian elites about their country's particular affinity with the Orient? There is no single answer to this question. The early twentieth century was a period when all over Europe a fascination with things Oriental engendered the questioning of many nineteenth century assumptions and prejudices. In that sense the revisionism of Russian Orientologists was part of a pan European trend. And yet Tolz also argues that a set of political, social and cultural factors which were specific to Russia allowed its imperial scholars to engage in an unusual dialogue with representatives of the empire's non European minorities. It is together that they were able to articulate a powerful, long lasting critique of modern imperialism and colonialism and to shape ethnic politics in Russia across the divide of the 1917 revolutions.

Screening Soviet Nationalities Oksana Sarkisova, 2016-11-30. Filmmakers in the early decades of the Soviet Union sought to create a cinematic map of the new state by portraying its land and peoples on screen. Such films created blueprints of the Soviet domain's scenic, cultural and ethnographic perimeters and brought together in many ways disparate nations under one umbrella. Categorised as kulturfilms, they served as experimental grounds for developing the cinematic formulae of a multiethnic, multinational Soviet identity. *Screening Soviet Nationalities* examines the non-fictional representations of Soviet borderlands from the Far North to the Northern Caucasus and Central Asia between 1925-1940. Beginning with Dziga Vertov and his vision of the Soviet space as a unified multinational mosaic, Oksana Sarkisova rediscovers films by Vladimir Erofeev, Vladimir Shneiderov, Alexander Litvinov, Mikhail Slutskii, Amo Bek-Nazarov, Mikhail Kalatozov, Roman Karmen and other filmmakers who helped construct an image of Soviet ethnic diversity and left behind a lasting visual legacy. The book contributes to our understanding of changing ethnographic conventions of representation, looks at studies of diversity despite the homogenising ambitions of the Soviet project and reexamines methods of blending reality and fiction as part of both ideological and educational agendas. Using a wealth of unexplored archival evidence from the Russian State Documentary Film and Photo Archive (RGAKFD) as well as the Gosfilmofond state film archive, Sarkisova examines constructions of exoticism, backwardness and Soviet-driven modernity through these remarkable and underexplored historical travelogues.

China's Global Engagement Jacques deLisle, Avery Goldstein, 2017-05-30. Assessing China's rapidly changing role on the international stage, China is again undergoing a period of significant transition. Internally, China's leaders are addressing challenges to the economy and other domestic issues after three decades of dramatic growth and reforms. President Xi Jinping and other leaders also are refashioning foreign policy to

better fit what they see as China's place in the world. This has included a more proactive approach to trade and related international economic affairs, a more vigorous approach to security matters and a more focused engagement on international cultural and educational affairs. In this volume, China specialists from around the world explore key issues raised by a changing China's interaction with a changing world. They chronicle China's emergence as a more capable actor whose engagement is reshaping international affairs in many dimensions. These include global currency and trading systems, patterns of cooperation and competition in technological innovation, economic and political trends in the developing world, the American led security order in the Asia Pacific region, the practice of international military and humanitarian intervention, the use of naval power, the role of international law in persistent territorial and maritime disputes in the East and South China Seas, the international human rights regime, the circulation of Chinese talent trained abroad, a more globalized film industry and programs to reshape global cultural awareness about China through educational initiatives. Across these diverse areas, China's capacity and desire to influence events and outcomes have risen markedly. The results so far are mixed and the future trajectory remains uncertain. But across the wide range of issues addressed in this book, China has become a major and likely an enduring participant.

Geography and Ethics James D. Proctor, David M. Smith, 2002-09-11. This book represents a landmark exploration of the common terrain of geography and ethics. Settlers on the Edge Niobe Thompson, 2009-01-01. Based on extensive research in the Arctic Russian region of Chukotka, **Settlers on the Edge** is the first English language account of settler life anywhere in the circumpolar north to appear since Robert Paine's *The White Arctic* 1977 and the first to explore the experiences of Soviet era migrants to the far north. Niobe Thompson describes the remarkable transformation of a population once dedicated to establishing colonial power on a northern frontier into a rooted community of locals now resisting a renewed colonial project. He also provides unique insights into the future of identity politics in the Arctic, the role of resource capital and the oligarchs in the Russian provinces and the fundamental human questions of belonging and transience.

Manchurian Railways and the Opening of China: An International History Bruce Elleman, Stephen Kotkin, 2015-01-28. The railways of Manchuria offer an intriguing vantage point for an international history of northeast Asia. Before the completion of the Trans-Siberian railway in 1916, the only rail route from the Imperial Russian capital of St. Petersburg to the Pacific port of Vladivostok transited Manchuria. A spur line from the Manchurian city of Harbin led south to ice-free Port Arthur. Control of these two rail lines gave Imperial Russia military, economic and political advantages that excited rivalry on the part of Japan and unease on the part of weak and divided China. Meanwhile, the effort

to defend and retain that strategic hold against rising Japanese power strained distant Moscow Control of the Manchurian railways was contested in the Russo Japanese War of 1904 5 Japan s 1931 invasion and establishment of the puppet state of Manchukuo the second Sino Japanese War and World War II in Asia and the Chinese civil war that culminated in the Communist victory over the Nationalists Today the railways are critical to plans for development of China s sparsely populated interior This volume brings together an international group of scholars to explore this fascinating history
