Feminist Heidegger Jill Drouillard, 2025-03-01 This book begins with an unexplored and unanswered question that Martin Heidegger raises in a 1923 Freiburg course Problem What is woman Yet why should we care that Heidegger raises this problem What could he a member of the National Socialist Party help feminists understand about responding to the woman question How can Heidegger help us understand our own historical climate in which this question continues to hold significance Jill Drouillard divides Heidegger's thought into two categories to think about the sexed gendered experiences that coordinate our birth 1 the one that suspends the woman question and that provides useful resources for thinking the fluidity of sex gender and 2 the one that provides a totalized reply to this query by manipulating tropes of the feminine to advance a politico-poetic project of Nazi politics She uses Heidegger as a cautionary tale to demonstrate the harm that occurs when society tries to define the being or what is of woman in any definite sense In some chapters she teases apart how Heidegger may

have offered a reply to the woman question and in others shows what happens in today's society when law, bioethics, politics and pedagogy reckon with this query

Talmudic Transgressions Charlotte Fonrobert, Ishay Rosen-Zvi, Aharon Shemesh, Moulie Vidas, 2017-05-15 Talmudic Transgressions is a collection of essays on rabbinic literature and related fields in response to the boundary pushing scholarship of Daniel Boyarin. This work is an attempt to transgress boundaries in various ways since boundaries differentiate social identities, literary genres, legal practices or diasporas and homelands. These essays locate the transgressive not outside the classical traditions but in these traditions themselves, having learned from Boyarin that it is often within the tradition and in its terms that we can find challenges to accepted notions of knowledge, text and ethnic or gender identity. The sections of this volume attempt to mirror this diverse set of topics. Contributors include Julia Watts Belser, Jonathan Boyarin, Shamma Boyarin, Virginia Burrus, Sergey Dolgopolski, Charlotte E. Fonrobert, Simon Goldhill, Erich S. Gruen, Galit Hasan Rokem, Christine Hayes, Adi Ophir, James Redfield, Elchanan Reiner, Ishay Rosen, Zvi Lena Salaymeh, Zvi Septimus, Aharon Shemesh, Dina Stein, Eliyahu Stern, Moulie Vidas, Barry Scott Wimpfheimer, Elliot R. Wolfson, Azzan Yadin, Israel Yuval and Froma Zeitlin

In Solidarity with the Earth Hilda P. Koster, Celia Deane-Drummond, 2023-09-21 Based on case studies, the book creates a multidisciplinary conversation on the gendered vulnerabilities resulting from extractive industries and toxic pollution and also charts the resilience and courage of women as they resist polluting industries, fight for clean water and seek to protect the land. While ecumenical in scope, the book takes its departure from the concept of integral ecology introduced in Pope Francis' encyclical *Laudato Si'*. The first three sections of the book focus on the social and ecological challenges facing minoritized women and their communities that are related to mining, pollutants and biodiversity loss and toxicity. The final section of the book focuses on the possibilities and obstacles to global solidarity. All chapters offer a cross disciplinary response to a particular local situation, tracing the ways ecological destruction resulting from extraction and toxic contamination affects the lives of women and their communities. The book pays careful attention to the political, economic and legal structures facilitating these life threatening challenges. Each section concludes with a response from a practitioner in the field representing an ecclesial organization or NGO focused on eco justice advocacy in the global South or minority communities in the global North

What is Constructive Theology? Marion Grau, Jason Wyman, 2020-10-29 This essential introduction to contemporary constructive theology charts the most important disciplinary trends of the moment. It gives a historical overview of the field and discusses key hermeneutical and methodological concerns. The contributors apply a constructive perspective to a wide range of approaches ranging from biblical hermeneutics and postcolonial studies to comparative political and black theology. *What is Constructive Theology?* shows how diverse and interdisciplinary constructive theology can be by exploring key themes in the field. The contributors explore the porous boundaries between Christianity and other religions, reflect on contextual liberation and constructive theologies from Africa and from Black British perspectives, explore the connection between embodiment, epistemology and

hermeneutics and take a constructive approach to the dangerous memories and theologies of colonial histories in Belgium and Native Americans in the United States This sampler of the field will help you rethink theologies and find constructive alternatives

Beyond Liminality Jack David Eller, 2024-07-08 *Beyond Liminality* Ontologies of Abundant Betweenness examines the concept of liminality in the social sciences and humanities and advocates for a more critical use of the concept while offering more precise alternatives Originally conceived in response to the near universal ritualization of changes of status i e rites of passage liminality was a welcome and much needed correction to the reigning static and structural models of culture at the time However it soon escaped its initial realm and was enthusiastically and mostly uncritically absorbed by many if not all scholarly disciplines The very success of the concept suggests that there is something about it that resonates with our own cultural sentiments However the assumptions that underlie diagnoses of liminality are seldom noted and even more seldom analyzed and critiqued This book examines the history of the concept its evolution and its current status and asks whether liminality accurately reflects lived realities which might better be described by fluidity hybridity multiplicity constant motion and recombination and abundant betweenness *Beyond Liminality* Ontologies of Abundant Betweenness is key reading for scholars and students across the social sciences and humanities interested in ritual performance identity formation rights ontology and epistemology

The Cyberdimension Eric Trozzo, 2019-04-29 In 2013 Edward Snowden released a trove of documents revealing the extent of government electronic surveillance Since then we have been inundated with reports of vicious malware attacks election hacking data breaches potential cyberwars fights over Net Neutrality and fake internet news Where once discussion of cyberspace was full of hope of incredible potential benefits for humanity and global connection it has become the domain of fear anxiety conflict and authoritarian impulses As the cloud of the Net darkens into a storm are there insights from Christian theology about our online existence Is the divine present in this phenomenon known as cyberspace Is it a realm of fear or a realm of hope In *The Cyberdimension* Eric Trozzo engages these questions seeking not only a theological means of speaking about cyberspace in its ambiguity but also how the spiritual dimension of life provokes resistance to the reduction of life to what can be calculated Rather than focusing on the content available online he looks to the structure of cyberspace itself to find a chastened yet still expectant vision of divinity amidst the political economic and social forces at play in the cyber realm

From Eden to Interstellar Space Sarah Anne Beattie, 2025-01-23 This book is a response to two questions The first concerns how we can do better as human beings in addressing the broken relationships between humankind the environment in which we live and the other species with which we coexist in an increasingly fragile world The second concerns whether secular humanism can provide the answer or if there is an important contribution that Christian faith can offer to an understanding of the human condition that will empower effective transformational action The book explores the possibility of developing an interpretive approach to biblical narrative that allows a biblical perspective of reality to provide an important complementary rather than competing

supplement to developing scientific perspectives of reality These are perspectives emerging from quantum mechanics and astrophysics that challenge both our conceptual ability and the limits of language in articulating mystery that in resisting physical explanation appears to demand new or different ways of thinking about ourselves and the world in which we live

Sense of the Possible L. Callid Keefe-Perry,2023-03-16 *Sense of the Possible* is for those interested in learning about the intersection of Christian theology and imagination Written from the assumption that imagination is deeply connected to the Christian work for liberation and human flourishing this book is an energizing introduction to the ways in which theologians have thought about the powerful human capacity to envision a future that has not yet come Containing perspectives from scripture theology philosophy and congregational studies this text is an excellent way to explore how it is that imagination can be part of a faithful Christian life Each chapter comes with recommended readings and discussion questions that can be used in churches or classrooms

Taking a Deep Breath for the Story to Begin Ernst M. Conradie,Lai Pan-Chiu,2022-08-23 This first volume in the proposed series will address some preliminary issues that are typical of a prolegomena in any systematic theology It will focus on the following question How does the story of who the Triune God is and what this God does relate to the story of life on Earth Or Is the Christian story part of the earth s story or is the earth s story part of God s story from creation to consummation This raises many issues on the relatedness of religion and theology the place of theology in multi disciplinary collaboration the notion of revelation the possibility of knowledge of God the interplay between convictions and narrative accounts hermeneutics the difference between natural theology and a theology of nature and the role of science vis vis indigenous worldviews

Renegotiating Power, Theology, and Politics Rick Elgendy,2015-10-21 This volume brings together established and rising scholars to revitalize political theology by examining conceptions of power that work beyond sovereign power The hope is to reexamine the character of authority by attending to the multiple various but often under appreciated ways that power is exercised in the contemporary world

Egalitarian Dynamics Bruce Kapferer,Marina Gold,2024-07-01 Liminality the state of being betwixt and between is one of anthropology s most influential concepts This volume reconsiders Victor Turner s innovative extension of Arnold Van Gennep s concept of liminality from within the Manchester tradition of Social Anthropology established by Max Gluckman Turner s work was grounded in ethnography and engaged with philosophical perspectives in varied socio historical contexts extending well beyond the confines of the anthropology that initially inspired much of his work Liminality has therefore become a concept with broad interdisciplinary reach Engaging with topical issues across the globe from neuroscience to open access publishing and refugee experiences in Europe this volume launches Turner s fundamental work into the future

Awake to the Moment Laurel C. Schneider,Stephen G. Jr. Ray,2004-12-01 Most introductory textbooks in theology see their primary task as explaining Christian doctrines that no one quite understands anymore While this is one of theology s jobs it is by no means the only nor even the most important one Theology has also been called to change the world to help people connect deeply

rooted beliefs about the world's source and goal to questions of personal meaning and communal thriving. Theology is here to help us make sense of the complex, flawed world into which we've been thrust and to assist us in our attempt to love our neighbors and live toward the common good. For more than forty years, the Workgroup on Constructive Theology has brought the liberal and liberationist theological traditions into creative encounter with lived human experience. In this introduction to the methods and tasks of theology, they invite a new generation of readers, many who will have little or no exposure to Christian doctrine, to see theology as a partner in the struggle for a better world. They demonstrate how theological ideas have legs, playing themselves out not only in religious communities but in the public square as well. Theology, the authors tell us, is constructive when it joins in God's work of building human lives and human societies. Readers will learn to think about all of life in light of their religious commitments and to see theology as an essential tool for a life well lived.

Contemporary Horror on Screen Sarah Baker, Amanda Rutherford, Richard Pamatatau, 2023-09-15. This book highlights how horror in film and television creates platforms to address distinct areas of modern-day concern. In examining the prevalence of dark tropes in contemporary horror films such as *Get Out*, *Annabelle*, *Creep*, *A Quiet Place*, *Hereditary*, and *The Nun*, as well as series such as *Stranger Things*, *American Horror Story*, and *Game of Thrones*, amongst numerous others, the authors contend that we are witnessing the emergence of a horror renaissance. They posit that horror films or programmes, once widely considered to be a low form of popular culture entertainment, can contain deeper meanings or subtext and are increasingly covering serious subject matter. This book thus explores how horror is utilised as a tool to explore social and political anxieties of the cultural moment and is thus presented as a site for contestation, exploration, and expansion to discuss present-day fears. It demonstrates how contemporary horror reflects the horror of modern-day life, be it political, biological, social, or environmental. A vital contribution to studies of the horror genre in contemporary culture and the effect it has on social anxieties in a threatening and seemingly apocalyptic time for the world, this is a vital text for students and researchers in popular culture, film, television, and media studies.

What does it mean for Christians from different parts of the world to understand discipleship of Jesus as a pilgrimage towards God's kingdom of justice and peace? This exciting and inspiring volume about the Pilgrimage of Justice and Peace was developed by the Theological Study Commission of the World Council of Churches. It offers an insight into the spiritual, social,

and theological dimensions of this global ecumenical initiative and its relevance in different contexts The thirteen contributions are complemented by personal stories of the authors *Christian Hermeneutics* James Fodor, 1995 Paul Ricoeur is one of the most influential philosophers alive today This book draws primarily on his hermeneutic insights to address the fundamental question of how reference truth and meaning are related in the discourse of theology Fodor defends the view that theological truth claims cannot be sustained without some appeal to the referential or in Ricoeur's terminology refigurative potential intrinsic to our linguistic practices By bringing the philosophical work of Ricoeur into mutually critical conversation with theology particularly that of Hans Frei the book underscores the importance of reference in assessing theological claims *Theological Hermeneutics* Werner G. Jeanrond, 1994
