**An Anthropological Guide to the Art and Philosophy of Mirror Gazing** Maria Danae Koukouti, Lambros

Malafouris, 2020-09-03 Looking at one's face in the mirror and finding one's self in the mirror are not the same The former capacity is something we share with other animals the latter is a skill something we have to learn What does it mean and what does it take to find oneself the mirror This book provides a comparative anthropological enquiry into the unity and diversity of mirror gazing The reader is encouraged to reflect upon and experiment with different mirror gazes through a range of case studies Koukouti and Malafouris weave together anthropology with philosophy and draw on examples from literature and experiments from psychopathology in a way that has never been attempted before The master metaphor is that of the mirror as trap Mirror gazing is viewed on a par with hunting Mirroring signifies the hunt for self knowledge In a time obsessed with the digital self image Koukouti and Malafouris reflect on the structures of consciousness that underpin the different ways of looking at and through the mirror Combining metaphor comparison and estrangement they gesture towards

a therapeutic alliance between body and mirroring This allows us to look in the mirror and think of our shared humanity differently **Lesser Dragons** Michael Dillon, 2018-05-15 Lesser Dragons is a timely introduction to the fascinating complex and vital world of China's national minorities Drawing on firsthand fieldwork in several minority areas Michael Dillon introduces us to the major non Han peoples of China including the Mongols the Tibetans the Uyghur of Xinjiang and the Manchus and traces the evolution of their relationship with the Han Chinese majority With chapters devoted to each of the most important minority groups and an additional chapter exploring the parallel but very different world of inter ethnic relations in Taiwan Lesser Dragons will interest anyone eager to understand the reality behind regional conflicts increasingly covered by global media From the tense security situation in Xinjiang to China's attitude toward Tibet and the Dalai Lama to the resistance efforts of Mongolian herders losing traditional grasslands Dillon's book both examines clichés such as those found in the Chinese press which often portrays ethnic minorities as colorful but marginal people and defies expectations He shows us how these minority peoples' religions cultures and above all languages mark these groups as distinct from the Chinese majority distinct yet endangered by the systemic forces of integration

Keane offers an explanation of Japanese divinity kami using sociology anthropology linguistics literature and history He presents an overview of how the Japanese have sought to love and serve their kami a quest that rivals the interest that the West gives to God The principles of interreligious dialogue are applied to the meaning of kami and a plea is made for a dialogue that respectfully accepts differences between the cultures and the theologies of Eastern and Western thought Important cultural themes are discussed as a part of this quest such as the emperors of Japan and the Japanese Tea Ceremony The work also challenges the understanding of kami as highlighted by Akutagawa Ryunosuke and Endo Shusaku *Reflections of the Mountain* Anne-Marie Blondeau, Ernst Steinkellner, 1996 Shamanism, History, and the State Nicholas Thomas, Caroline Humphrey, 1996 Nine case studies of shamanic practice in widely different cultures

Not Quite Shamans Morten Axel Pedersen,2011-04-15 The forms of contemporary society and politics are often understood to be diametrically opposed to any expression of the supernatural what happens when those forms are themselves regarded as manifestations of spirits and other occult phenomena In Not

Quite Shamans Morten Axel Pedersen explores how the Darhad people of Northern Mongolia's remote Shishged Valley have understood and responded to the disruptive transition to postsocialism by engaging with shamanic beliefs and practices associated with the past. For much of the twentieth century Mongolia's communist rulers attempted to eradicate shamanism and the shamans who once served as spiritual guides and community leaders. With the transition from a collectivized economy and a one party state to a global capitalist market and liberal democracy in the 1990s the people of the Shishged were plunged into a new and harsh world that seemed beyond their control. Not quite shamans young unemployed men whose undirected energies erupted in unpredictable frightening bouts of violence and drunkenness that seemed occult in their excess became a serious threat to the fabric of community life. Drawing on long term fieldwork in Northern Mongolia Pedersen details how for many Darhads the postsocialist state itself has become shamanic in nature. In the ideal version of traditional Darhad shamanism shamans can control when and for what purpose their souls travel whether to other bodies landscapes or worlds. Conversely caught between uncontrollable spiritual powers and an excessive display of physical force the not quite shamans embody the chaotic forms the free market neoliberal reform and government corruption that have created such upheaval in peoples lives. As an experimental ethnography of recent political and economic transformations in Mongolia through the defamiliarizing prism of shamans and their lack. Not Quite Shamans is an attempt to write about as well as theorize postsocialism and shamanism in a new way.

*Aceasta parte a Edenului* Hans Peter Duerr, Si totusi Ce este sacru Tot ceea ce este tabu interzis tainuit sentimentele si emotiile intense si ceea ce este pur si simplu inexplicabil reprezinta experiente religioase. Trairile religioase se nasc din ceva anume sau le primim pe cale transcendentă. Sau unde este granita dintre o experienta religioasa si un fenomen explicabil in mod natural. Prin lucrarea sa indrazneata H P Duerr ne invita sa raspundem acestor intrebari ridicand toate valurile si punand sub lupa experientele cele mai tainuite fascinante si scandaloase deopotriva care au marcat constiinta umana.

**What the Hell Are the Neurons up To?** Graham

Collier, 2011-01-19 Know Thyself. Such was the advice constantly offered over 2 000 years ago by the famed Greek Oracle of Apollo at Delphi. It was given in response to those who sought her counsel regarding the course their destiny was likely to take. It is still sound advice for most of us in the modern world. To come to really know oneself discover ones distinctive temperament and character requires frequent self scrutiny. It is well nigh impossible to know what makes one tick without recognizing the nature of ones attitudes and responses to life in the outside world while also acknowledging the highly personal inner psychological drives of feeling thought and imagination. The consciousness that impels us is psychologically deep and wide ranging. The search for the essential Self requires a Sherlock Holmes mentality and discipline. Its a hell of a job to unify outer and inner consciousnesses. This book should help. Every chapter can be seen and read as its own story describing an especially significant aspect of consciousness. Cumulatively they are meant to help readers attain a sense of their own body mind spirit complexes and who they are as entities unto themselves. And then to ask the question as to where

reality is to be found in the mental life of thoughts and feelings or in physical encounters with the material world of time and space     *The to Z of Shamanism* Graham Harvey, Robert J. are made present. It does so by examining material representations of these powers through artefacts, animals, plants and natural substances while also focusing on narratives of people's encounters with the invisible that may help them to reconfigure reality. Through these two approaches, the contributions examine new phenomena associated with the concepts of possession and shamanism, which otherwise tend to lead research into well-worn furrows. The book addresses a range of themes including the gods of the Western Himalayas, death and ritual dissolution among Hyolmo Buddhists in Nepal, gods and rivers as legal persons in India and the problem of conversion disorder in Nepal. Rich in ethnography, this book will be indispensable for scholars and researchers of anthropology, religion, spiritualism, sociology of religion, Himalayan studies, sociology and South Asia.
