Writing Changes: Alphabetic Text and Multimodal Composition Pegeen Reichert Powell, 2020-04-01 Writing Changes moves beyond restrictive thinking about composition to examine writing as a material and social practice rich with contradictions It analyzes the assumed dichotomy between writing and multimodal composition which incorporates sounds images and gestures as well as the truism that all texts are multimodal Organized in four sections the essays explore alphabetic text and multimodal composition in writing studies specific pedagogies that place writing in productive conversation with multimodal forms current representations of writing and multimodality in textbooks of instructors attitudes toward social media and of writing programs ideas about writing studies as a discipline in the light of new communication practices Bookending the essays are an introduction that frames the collection and establishes key terms and concepts and an epilogue that both sums up and complicates the ideas in the essays *Antiracist Writing Assessment Ecologies* Asao B. Inoue, 2015-11-08 In *Antiracist Writing Assessment Ecologies* Asao B Inoue theorizes classroom writing assessment as a complex system that is more than its interconnected elements To explain how and why antiracist work in the writing classroom is vital to literacy learning Inoue incorporates ideas about the white racial habitus that informs dominant discourses in the academy and other contexts

Improving Learning Through Assessment Rubrics: Student Awareness of What and How They Learn Gonsalves, Chahna, Pearson, Jayne, 2023-08-14 Assessment by rubrics has emerged as a tool with great potential to guide successful student learning from a competency based approach Rubrics as instruments that make it possible to share the criteria for carrying out learning and assessment tasks with students are excellent roadmaps for student learning largely because they allow students to know what they are expected to do and what they are expected to achieve by carrying out the learning tasks Improving Learning Through Assessment Rubrics Student Awareness of What and How They Learn contributes to the improvement of what is being evaluated by identifying the strengths as well as the weaknesses of the didactic use of rubrics in the assessment of university learning The book also provides a set of theoretical issues methodological elements and practical resources for the assessment of university learning using rubrics Covering topics such as active learning self assessment and teacher identity this reference work is ideal for administrators policymakers researchers scholars academicians practitioners educators and students

Unplugging the Classroom Hilary Anne Wilder, Sharmila Pixy Ferris, 2017-05-17 *Unplugging the Classroom Teaching with Technologies to Promote Students Lifelong Learning* provides techniques to help teaching and learning in an age where technology untethers instruction from the classroom from semester seat time and from a single source of expertise The book brings together researchers and practitioners from diverse academic fields including library perspectives and presents interdisciplinary discussions from both theoretical and applied areas It is unique in its goal of bringing educators and librarians together to explore the challenges that are faced by students and faculty in any time any place any path and any pace learning In spite of

the fact that the mobile revolution has definitively arrived students and faculty alike aren't ready to make the leap to mobile learning. The pressures of technological advances along with the changing nature of learning will demand increasingly profound changes in education. Researchers have begun to address this issue but the revolution in mobile communication has not been accompanied by a concomitant growth in pedagogical resources for educators and students. More importantly such growth needs to be undergirded by sound learning theories and examples of best practice. Provides a hands-on resource useful to both novices and experts for technology-enabled teaching and learning. Gives both discipline-specific and cross-disciplinary perspectives. Discusses discipline-specific mobile applications. Offers an opportunity to meet the needs of contemporary learners and foster their competencies as lifelong learners. Addresses emerging issues in technology and pedagogy.

Helping Students Motivate Themselves Larry Ferlazzo, 2013-09-27 Give your students the tools they need to motivate themselves with tips from award-winning educator Larry Ferlazzo. A comprehensive outline of common classroom challenges this book presents immediately applicable steps and lesson plans for all teachers looking to help students motivate themselves. With coverage of brain-based learning, classroom management, and using technology, these strategies can be easily incorporated into any curriculum. Learn to implement solutions to the following challenges: How do you motivate students? How do you help students see the importance of personal responsibility? How do you deal with a student who is being disruptive in class? How do you regain control of an out-of-control class? And more. Blogger and educator Larry Ferlazzo has worked to combine literacy development with short and rigorous classroom lessons on topics such as self-control, personal responsibility, brain growth, and perseverance. He uses many on-the-spot interventions designed to engage students and connect with their personal interests. Use these practical, research-based ideas to ensure all of your students are intrinsically motivated to learn.

English for Students of Maritime Academy Nancy Lumban Batu, Each lesson within this book has been meticulously developed to offer you a comprehensive understanding of key topics from the hierarchies of seafarer professions and ranks to the nuances of maritime communication and the latest regulatory amendments affecting the industry. Through a blend of theoretical exploration and analytical exercises, you are invited to engage with the material, actively applying what you learn to real-world scenarios and reflecting on the implications of your newfound knowledge. This journey is not just about acquiring technical vocabulary or understanding regulatory texts; it's about fostering a deeper appreciation for the language of the sea and its role in guiding the safe passage of ships across the world's oceans. It's about preparing you to not only succeed in your examinations but to thrive in a challenging and rewarding industry.
