## **Refusing The Veil Provocations:**

*Refusing the Veil* Yasmin Alibhai-Brown, 2014-11-27 This topic divides people and it will divide readers of this book too Many Muslims worldwide either support or adopt religious veiling and those who argue against it are often criticised or worse But according to Yasmin Alibhai Brown the veil throws up a number of concerns from questions of health and freedom of choice to issues of gender and personal identity She argues that veiling conceals abuse propagates eating disorders and restricts access to sunlight and exercise It is imposed on babies and young girls allows women to be shamed for not covering up and has become associated with extremist factions It demonises men oppresses feminism and presents obstacles to performance and success It even encourages racism distorts Muslim values and strips women of autonomy and individuality Written from a unique perspective and packed with personal experiences as well as public examples Yasmin addresses the ultimate question of why Muslim women everywhere should refuse the veil

**The Madness of Modern Parenting** Zoe Williams, 2014-11-27 Parenting in the modern world is an overwhelming concept It seems to divide everyone from psychologists and politicians to scientists and salesmen leaving the parents themselves with a terrible headache as a result How can anyone live up to such expansive and conflicting expectations As Zoe Williams explores the madness begins before the baby has even arrived hysteria is rife surrounding everything from drinking alcohol and eating cheese to using a new frying pan And it only gets worse The list of things you need to consider as well as the things you never realised you needed to consider is ever increasing and questions of breastfeeding buggies staying at home schooling and what your mother in law thinks you re doing wrong take over completely The task of raising a child has been turned into a circus of ludicrous proportions Combining laugh out loud tales of parenthood with myth busting facts and figures Zoe provides the antithesis of all parenting discussions to date After all parents managed perfectly well for centuries before this modern madness so why do today s mothers and fathers make such an almighty fuss about everything

Islam Beyond the Violent Jihadis Ziauddin Sardar, 2016-04-07 Islam has been corrupted A virulent strain of the religion manifests itself in bloodthirsty mutations such as Boko Haram in Nigeria and the terrifying spectre of ISIS But behind the atrocities and turmoil lie many different versions and visions of Islam each struggling to survive in a rapidly changing world Ziauddin Sardar with inimitable wit and intelligence chronicles the diversity and richness of Islam and in doing so answers a host of frequently asked questions Is Islam inherently violent and misogynistic Why do young men and women choose to join the jihadi caliphate What part should Muhammad s teachings play in our own times Islam Beyond the Violent Jihadis argues for a pluralistic and reflective religion with a distinguished past but one that appears to have been wrenched from its noble origins by rigid fundamentalism In examining how we have nourished the rise of Islamic jihadi groups Sardar urges us all to work together to preserve the sanity of our world

*Down With the Royals* Joan Smith, 2015-03-24 When Prince George was just eight weeks old the Evening Standard declared him to be the most influential person in London He couldn t even walk let alone talk Yet one day

he could become head of state whether we like it or not Joan Smith argues that it has become nearly impossible to question the existence of the monarchy Articulate republicans are drowned out while the supercharged PR and media machines ask only who designed Kate s dresses Smith topples the arguments for having a monarchy one by one The royals don t provide a boost for tourism and their deliberately opaque accounting conceals the truth about the huge burden they place on the public purse And she exposes darker truths These symbols of so called impartiality have hidden power and influence Not only does Charles regularly lobby government ministers but far from the sycophantic reporting of Kate s baby bump the royals have dined with despots with blood on their hands Are these people really fit to be the public face of a modern country Ultimately Smith declares that the monarchy undemocratic unaccountable and shockingly expensive has no place in modern Britain

Comparative Human Rights Law Sandra Fredman, 2018-11-08 Courts in different jurisdictions face similar human rights questions Does the death penalty breach human rights Does freedom of speech include racist speech Is there a right to health This book uses the prism of comparative law to examine the fascinating ways in which these difficult questions are decided On the one hand the shared language of human rights suggests that there should be similar solutions to comparable problems On the other hand there are important differences Constitutional texts are worded differently courts have differing relationships with the legislature and there are divergences in socio economic development politics and history Nevertheless there is a growing transnational conversation between courts with cases in one jurisdiction being cited in others Part I sets out the cross cutting themes which shape the ways judges respond to challenging human rights issues It examines when it is legitimate to refer to foreign materials how universality and cultural relativity are balanced in human rights law the appropriate role of courts in adjudicating human rights in a democracy and the principles judges use to interpret human rights texts The book is unusual in transcending the distinction between socio economic rights and civil and political rights Part II applies these cross cutting themes to comparing human rights law in the US UK South Africa Canada and India Its focus is on seven particularly challenging issues the death penalty abortion housing health speech education and religion with the aim of inspiring further comparative examination of other pressing human rights issues *The War On The Old* John Sutherland, 2016-11-17 The war on the old has been declared In the post Brexit world intergenerational conflict has become a visible phenomenon There is an overwhelming sense of blame from younger generations it was the wrinklies the grey haired plutocracy who voted Leave who are overburdening hospitals shutting the youth out of the housing market and hoarding accumulated wealth By 2020 we are told one in five Britons will be pensioners and living a longer retirement than ever before A good thing politicians add through gritted teeth The truth is that for them the old are a social economic and political inconvenience John Sutherland age 78 and feeling keenly what he writes about examines this intergenerational combat as a new kind of war in which institutional neglect and universal indifference to the old has reached aggressive and routinely lethal levels This is a book which sets out to provoke but in the process tells some deep and inconvenient truths

revealing something British society would rather not think about      **The Democratic Spirit of Law** Dominique Schnapper, 2017-07-05 In this major new work Dominique Schnapper continues her investigation into changes in contemporary democracy Although she concentrates on the French example *The Democratic Spirit of Law* concerns all democratic societies Schnapper warns against the danger of corrupting the principles as defined by Montesquieu on which democracy is based If democracy becomes extreme all its founding principles risk being corrupted Respect for institutions is necessary for freedom to be effective Furthermore if democrats cease to distinguish between facts and values religion and politics politics and the judiciary knowledge and opinion and knowledge and intuition they will sink into absolute relativism or a nihilism that threatens the very values on which democratic society is based By pointing out the danger of corruption inherent in the democratic promise of freedom equality and happiness the author provides intellectual weapons not only to understand but also to defend democracy the only system in history despite its limits and failures that has humanely organized human societies Democracy's future depends on citizens preservation of the founding spirit of the democratic order recognition of others and free reasonable and controlled criticism of legitimate institutions      **Black Aliveness, or A Poetics of Being** Kevin Quashie, 2021-02-05 In *Black Aliveness or A Poetics of Being* Kevin Quashie imagines a Black world in which one encounters Black being as it is rather than only as it exists in the shadow of anti Black violence As such he makes a case for Black aliveness even in the face of the persistence of death in Black life and Black study Centrally Quashie theorizes aliveness through the aesthetics of poetry reading poetic inhabitation in Black feminist literary texts by Lucille Clifton Audre Lorde June Jordan Toni Morrison and Evie Shockley among others showing how their philosophical and creative thinking constitutes worldmaking This worldmaking conceptualizes Blackness as capacious relational beyond the normative terms of recognition Blackness as a condition of oneness Reading for poetic aliveness then becomes a means of exploring Black being rather than nonbeing and animates the ethical question how to be In this way Quashie offers a Black feminist philosophy of being which is nothing less than a philosophy of the becoming of the Black world      **The Political History of England ...: Leadam, I.S. **France** Nabila Ramdani,2023-09-26 A French Algerian journalist born and brought up in a neglected Paris suburb offers unique insight into crisis ridden France from a very different perspective to the establishment elites France the romanticized revolutionary land with an enlightened historical mission Liberty Equality Fraternity for all is failing its own citizens and its admirers around the world How did the country get here and what can be done about it In *Fixing France* Nabila Ramdani assesses the fault lines in her struggling nation with unflinching clarity and originality The makeshift Fifth Republic which emerged from the cataclysmic Algerian War of Independence has produced extremism Constitutional reform is urgently needed an all powerful monarchical president displays little interest in democracy while a mainstream far right party founded by Nazi collaborators threatens to deliver a head of state Segregated suburbs institutionalized rioting economic injustice a monolithic education system the debasement of women deep seated racial and religious discrimination paramilitary policing terrorism and a duplicitous foreign policy all fuel the growing crisis Ramdani s critique is stark but provides real hope the broken French Republic can and must be fixed

**Postcolonialism and Political Theory** Nalini Persram,2007-05-10 *Postcolonialism and Political Theory* explores the intersection between the political and the postcolonial through an engagement with critique of and challenge to some of the prevalent restrictive tenets and frameworks of Western political and social thought It is a response to the call by postcolonial studies as well as to the urgent need within world politics to turn towards a multiplicity largely excluded from globally dominant discourses of community subjectivity power and prosperity constituted by otherness radical alterity or subordination to the newly reconsolidated West The book offers a diverse range of essays that re examine and open the boundaries of political and cultural modernity s historical domain that look at how the racialized and gendered and cultured subject visualizes the social from elsewhere that critique the limits of postcolonial theory and its claim to celebrate diversity and that complicate the notion of postcolonial politics within settler societies that continue to practice exile of the indigenous *Postcolonialism and Political Theory* is an ideal book for graduate and advanced undergraduate level study and for those working both disciplinarily and interdisciplinarily both inside and outside academia
