Here are some typical RN interview questions along with example answers to help you get ready.

- 1 Why did you choose a career in nursing?  
Answer: I chose a career in nursing because I have always been passionate about helping people and making a difference in their lives. Nursing allows me to combine my interest in science and medicine with my desire to provide compassionate care. I find great fulfillment in supporting patients and their families through challenging times and being a part of their healing process.
- 2 Can you describe a time when you had to handle a difficult patient? How did you manage the situation?  
Answer: One instance that stands out is when I was caring for a patient who was extremely anxious and uncooperative. I took the time to listen to his concerns and tried to understand the root of his anxiety. I used a calm and reassuring tone, explained each step of his treatment plan clearly, and involved him in decision making. This approach helped build trust, and gradually he became more cooperative. Effective communication and empathy were key to managing the situation.
- 3 How do you handle high stress situations? Can you give an example?  
Answer: I handle high stress situations by staying organized, prioritizing tasks, and maintaining a calm demeanor. For example, during a particularly busy shift in the ER, we had multiple critical patients arrive simultaneously. I quickly assessed the severity of each case, delegated tasks to the team based on their strengths, and kept clear and concise communication going. By staying focused and composed, we were able to provide timely and effective care to all patients.
- 4 What steps do you take to ensure patient safety?  
Answer: Ensuring patient safety is my top priority. I adhere to hospital protocols and guidelines, double-check medication orders and dosages, maintain accurate and up-to-date patient records, and practice proper hand hygiene to prevent infections. Additionally, I always verify patient identities before administering treatments and stay vigilant for any signs of complications or adverse reactions.

9 How do you handle a situation where you disagree with a doctor's orders Answer If I disagree with a doctor's orders I address the situation professionally and respectfully I would seek clarification by discussing my concerns with the doctor privately presenting evidence or observations that support my perspective If the disagreement persists and I believe patient safety is at risk I will follow the hospital's chain of command to escalate the issue appropriately My primary focus is always on the patient's well being
