**Ancestry Reimagined** Kostas Kampourakis, 2023 Recent social and political psychological research indicates that increased access to ancestry testing has strengthened the notion of genetic essentialism among some groups or the idea that our biology ties us to particular ethnic identities Using research from both the social sciences and the genetics literature as support *Ancestry Reimagined* establishes realistic expectations about what we can learn from our DNA as a foundation for examining the psychological impact of ancestry testing including the differences between how this information is perceived versus its reality **Fairy Tales Reimagined** Susan Redington Bobby, 2014-01-10 Although readers and filmgoers are

strongly familiar with Disney's sanitized child-centric fairy tales they are quick to catch on to reworkings of classic tales into a contemporary context The rise in such retellings seems to indicate that readers are hungry for a new narrative one that harkens back to the old yet moves the storyline forward to reflect conditions of the modern world No mere escapist fantasies the reimagined fairy tales of the late 20th and early 21st centuries reflect social political and cultural truths Sixteen essays consider fairy tales recreated through short stories novels poetry and the graphic novel from both best-selling and lesser-known writers applying a variety of perspectives including postmodernism psychoanalysis Marxism feminism queer theory and gender studies Along with the classic fairy tales fiction from writers such as Neil Gaiman *Stardust* and Gregory Macquire *Wicked* is covered **Political Theology Reimagined** Alex Dubilet, Vincent W. Lloyd, 2025-07-25 The

in the present through the plays of Marina Carr The title frames the work connoting the path towards destruction and the sense of lethargy acquired along the way The book offers an in-depth and extensive reading of Carr's plays In doing so it surveys some of the destructive issues represented in the works and provides a series of social and cultural contexts to which the concerns in the works are related Carr is best known for her trilogy *The Mai* *Portia Coughlan* and *By the Bog of Cats* and more recently *Woman and Scarecrow* *The Cordelia Dream* and *Marble* The plays are regularly concerned with notions of identity in the context of self-destruction self-estrangement and displacement This book applies Julia Kristeva's theory of abjection to Carr's plays in an effort to structure the loss the author identifies in the works Themes of memory history and myth are examined in the context of these concerns in provocative and confrontational ways **Why the Bible Began** Jacob

L. Wright, 2023-08-17 Why did no other ancient society produce something like the Bible That a tiny out-of-the-way community could have created a literary corpus so determinative for peoples across the globe seems improbable For Jacob Wright the Bible is not only a testimony of survival but also an unparalleled achievement in human history Forged after Babylon's devastation of Jerusalem it makes not victory but total humiliation the foundation of a new idea of belonging

Lamenting the destruction of their homeland scribes who composed the Bible imagined a promise filled past while reflecting deeply on abject failure More than just religious scripture the Bible began as a trailblazing blueprint for a new form of political community Its response to catastrophe offers a powerful message of hope and restoration that is unique in the Ancient Near Eastern and Greco Roman worlds Wright's Bible is thus a social political and even economic roadmap one that enabled a small and obscure community located on the periphery of leading civilizations and empires not just to come back from the brink but ultimately to shape the world's destiny The Bible speaks ultimately of being a united yet diverse people and its pages present a manual of pragmatic survival strategies for communities confronting societal collapse **Children's**

**Books in Print. Author and Title Index**, 1975 Care at the End of the World Jina B. Kim, 2025-03-21 In *Care at the End of the World* Jina B Kim develops what she calls cripp of color critique bringing a disability lens to bear on feminist and queer of color literature in the aftermath of 1996 US welfare reform and the subsequent evisceration of social safety nets She examines literature by contemporary feminist queer and disabled writers of color such as Jesmyn Ward Octavia Butler Karen Tei Yamashita Samuel Delany and Aurora Levins Morales who each bring disability and dependency to the forefront of their literary freedom dreaming Kim shows that in their writing liberation does not take the shape of the unfettered individual or hinge on achieving independence Instead liberation emerges by recuperating dependency cultivating radical interdependency and recognizing the numerous support systems upon which survival depends At the same time Kim demonstrates how theories and narratives of disability can intervene into state authored myths of resource parasitism such as the welfare queen In so doing she highlights the alternate structures of care these writers envision and their dreams of life

Frankel,2017-03-23 The heroine's journey echoes throughout ancient legend. Each young woman combats her dark side and emerges stronger. This quest is also a staple of American comic books. Wonder Woman with semi-divine powers gives us a new female-centered creation story. Batgirl, Batwoman, and Black Widow discover their enemy is the dark mother or shadow twin with the savagery they've rejected in themselves. Supergirl similarly struggles but keeps harmony with her sister. From Jessica Jones and Catwoman to the new superwomen of cutting-edge webcomics, each heroine must go into the dark to become not a warrior but a savior. Women like Captain Marvel and Storm sacrifice all to join the ranks of superheroes while their feminine powers and dazzling costumes reflect the most ancient tales. **Paris and the Musical** Olaf

Jubin,2021-03-18 **Paris and the Musical** explores how the famous city has been portrayed on stage and screen, investigates why the city has been of such importance to the genre, and tracks how it has developed as a trope over the 20th and 21st centuries. From global hits *An American in Paris*, *Gigi*, *Les Misérables*, *Moulin Rouge*, and *The Phantom of the Opera* to the less widely known *Bless the Bride*, *Can-Can*, *Irma la Douce*, and *Marguerite*, the French capital is a central character in an astounding number of Broadway, Hollywood, and West End musicals. This collection of 18 essays combines cultural studies, sociology, musicology, art, and adaptation theory and gender studies to examine the envisioning and dramatisation of Paris and its depiction as a place of romance, hedonism, and libertinism, or as the capital of the arts. The interdisciplinary nature of this collection renders it as a fascinating resource for a wide range of courses; it will be especially valuable for students and scholars of Musical Theatre and those interested in Theatre and Film History more generally.
