I Win, We Lose John Hall Snow, 2016-01-13 John Hall Snow was professor of pastoral theology at the Episcopal Divinity School and considered preacher in residence at Christ Church Cambridge Massachusetts for over eighteen years In this previously unpublished manuscript Snow outlines his critique of American culture building on America's adoption of Herbert Spencer's social theory known as survival of the fittest The unconscious acceptance of his theory has reduced us to winners and losers leading us to disfigure language and truth Snow writes We lie to others and ourselves basically because we believe that lies facilitate whatever it is that we want to do The basic untruth of human existence is that we can control reality by making it over in the image that we want it to be by words And since words are all we have to define reality everything we do and think is touched by untruth Even the best as well as the worst of us do this The best withhold the truth the worst distort it The overriding priority is the goal not the truth The idea seems to be that what we have built with words will become reality *Kirby Is... Fab Four FAQ 2.0 Robert Rodriguez, 2010-03 In the years following the 1960s Beatles fans around the world were twice stunned in 1970 when their beloved group disbanded and ten years later when the murder of John Lennon ended a decade of hope that somehow the Fab Four would reunite Between those milestones were astounding highs and unfathomable lows George Harrison's 1971 benefit for the suffering of Bangladesh showed the world the possibilities of rock's altruism while Lennon asked the world to imagine universal peace before sitting out half the decade to raise his son Ringo Starr the most overlooked Beatle carved himself a surprising niche in film before launching a string of hit singles And Paul McCartney widely seen as the instigator of the breakup became one of rock's most beloved performers racking up record breaking smashes that climaxed with a triumphant world tour in 1976 This book covers everything from their recording careers in the decade after the band's dissolution to the musicians they played with the bands they influenced the manifestations of latter day Beatlemania and the constant clamour for reunion expressed by fans and sometimes by the four themselves

Worshiping Politics Luke J. Goble, 2017-05-08 It is not a secret that the political system in the United States is broken Unfortunately many Christians are ambivalent about or worse yet contributors to that dysfunction Many know they should do something but don't know what to do or how to do it Drawing on insights from history theology and culture *Worshiping Politics* reframes the relationship between faith and politics as one of intentional formation instead of divisive decision making When we focus on how we are formed as people and the church in relationship to our various communities instead of what we think and believe in relation to culture and society it changes the way we engage the world Unlearning our faulty emphasis on the power of our own intellect and learning how to be formed in grace and love for the world through our everyday lives just might make a different kind of politics possible
