Reform Of U S International Taxation Alternatives Crs Reports

Jane Gravelle

Reform Of U S International Taxation Alternatives Crs Reports:

Reform of U. S. International Taxation Jane G. Gravelle, 2011-04 Is the current U S tax system for taxing U S international business the appropriate one for the modern era of globalized business operations or should its basic structure be reformed Contents of this report The Current System and Possible Revisions Neutrality Efficiency and Competitiveness Assessing the Existing Tax System Territorial Taxation The Dividend Exemption Proposal A Residence Based System in Practice President Obama s Proposals to Restrict Deferral and Cross Crediting Tax Havens Issues and Policy Options General Reforms of the Corporate Tax and Implications for International Tax Treatment Charts and tables This is a print on demand edition of an important hard to find publication [US Congress Joint Committee on Taxation Handbook - Strategic Information and Regulations](#) IBP USA, 2013-08 US Congress Joint Committee on Taxation Handbook **Tax Havens:**

International Tax Avoidance and Evasion Jane Gravelle, 2009 The first section of this report reviews what countries might be considered tax havens including a discussion of the Organization for Economic Development and Cooperation OECD initiatives and lists The next two sections discuss in turn the corporate profit shifting mechanisms and evidence on the existence and magnitude of profit shifting activity The following two sections provide the same analysis for individual tax evasion The report concludes with overviews of alternative policy options and a summary of specific legislative proposals

[Pathways to Fiscal Reform in the United States](#) John W. Diamond, George R. Zodrow, 2015-01-02 Experts discuss fiscal reforms intended to address the U S debt problem examining entitlements federal budgetary processes and individual and corporate income taxes The United States and other advanced economies in the Eurozone and elsewhere face severe fiscal problems The United States is on an unsustainable dynamic path absent corrective fiscal policies federal deficits and debts relative to gross domestic product will continue to increase dramatically In this book experts consider possible fiscal reforms aimed at addressing the debt problem focusing on entitlement programs budgetary issues and processes and individual and corporate income tax reform The contributors address such topics as the interaction of rising health care costs and the level of federal expenditures alternative methods for evaluating the fiscal health and sustainability of Social Security the effectiveness of budgetary constraints imposed on the states including balanced budget amendments and debt ceilings approaches to curtailing individual tax expenditures and methods for increasing the progressivity of the tax system and the effects of traditional base broadening rate reducing corporate income tax reforms Contributors Henry J Aaron James Alm Rosanne Altshuler Daniel Baneman Joe Barnes Robert J Carroll Ruud A de Mooij John W Diamond Jagadeesh Gokhale Jane G Gravelle Peter R Hartley Vivian Ho John Kitchen Edward D Kleinbard John Mutti Thomas S Neubig Mark V Pauly Rudolph G Penner Andrew J Rettenmaier Shanna Rose Joseph Rosenberg Daniel Smith Eric Toder Alan D Viard Robertson Williams George R Zodrow [The Need for Comprehensive Tax Reform to Help American Companies Compete in the Global Market and Create Jobs for American Workers](#) United States. from Reagan United States. Congress. Joint Economic Committee,2013

Reform of U.S. International Taxation

Congressional Research Service,2014-12-01 A striking feature of the modern U S economy is its growing openness its increased integration with the rest of the world The attention of tax policy makers has recently been focused on the growing participation of U S firms in the international economy and the increased pressure that engagement places on the U S system for taxing overseas business Is the current U S system for taxing U S international business the appropriate one for the modern era of globalized business operations or should its basic structure be reformed The current U S system for taxing international business is a hybrid In part the system is based on a residence principle applying U S taxes on a worldwide basis to U S firms while granting foreign tax credits to alleviate double taxation The system however also permits U S firms to defer foreign source income indefinitely a feature that approaches a territorial tax jurisdiction In keeping with its mixed structure the system produces a patchwork of economic effects that depend on the location of foreign investment and the circumstances of the firm Broadly the system poses a tax incentive to invest in countries with low tax rates of their own and a disincentive to invest in high tax countries In theory U S investment should be skewed toward low tax countries and away from high tax locations Evaluations of the current tax system vary and so do prescriptions for reform According to traditional economic analysis world economic welfare is maximized by a system that applies the same tax burden to prospective marginal foreign and domestic investment so that taxes do not distort investment decisions Such a system possesses capital export neutrality and could be accomplished by worldwide taxation applied to all foreign operations along with an unlimited foreign tax credit In contrast a system that maximizes national welfare a system possessing national neutrality would impose a higher tax burden on foreign investment thus permitting an overall disincentive for foreign investment Such a system would impose worldwide taxation but would permit only a deduction and not a credit for foreign taxes A tax system based on territorial taxation would exempt overseas business investment from U S tax In recent years several proponents of territorial taxation have argued that changes in the world economy have rendered traditional prescriptions for international taxation obsolete and instead prescribe territorial taxation as a means of maximizing both world and national economic welfare For such a system to be neutral however capital would have to be completely immobile across locations A case might be made that such a system is less distorting than the current hybrid system but it is not clear that it is more likely to achieve policy goals than other reforms including not only a movement toward worldwide taxation by ending deferral but also proposals to provide a minimum tax and restrict deductions for costs associated with deferred income or restrict deferral and foreign tax credits for tax havens Fair and Equitable Tax Policy for America's Working Families

United States. Congress. House. Committee on Ways and Means,2008

Challenging the Orthodoxy Susan K.

Schroeder,Lynne Chester,2013-11-19 Political economy focuses on issues that are fundamental to individual and collective well being and rests on the proposition that economic phenomena do not occur in isolation from social and political processes

One leading Australian political economist is Frank Stilwell. Highlights of his work include concerns with the creation and use of wealth inequalities between rich and poor, the spatial implications of economic growth, and the tensions between economic growth and the environment. Stilwell has been especially prominent in developing alternative economic policies with seminal contributions to understanding the radical shift in Australian economic and social policies since the early 1980s. He has also been a leader in the teaching of political economy to many cohorts of first year university students. This collection spanning these themes honours Stilwell's contribution to Australian political economy after more than 40 years teaching at the University of Sydney. The book provides not only an opportunity to appreciate his contribution but also a greater understanding of these themes which remain of crucial contemporary relevance. Taxing Ourselves, fifth edition Joel Slemrod, Jon Bakija, 2017-06-02. The new edition of a popular guide to the key issues in tax reform presented in a clear nontechnical and unbiased way. To follow the debate over tax reform the interested citizen is often forced to choose between misleading sound bites and academic treatises. Taxing Ourselves bridges the gap between the oversimplified and the arcane presenting the key issues clearly and without a political agenda. Tax policy experts Joel Slemrod and Jon Bakija lay out in accessible language what is known and not known about how taxes affect the economy and offer guidelines for evaluating tax systems both the current tax system and proposals to reform it. This fifth edition has been extensively revised to incorporate the latest data, empirical evidence and tax law. It offers new material on recent tax reform proposals, expanded coverage of international tax issues and the latest enforcement initiatives. Offering historical perspectives outlining the basic criteria by which tax policy should be judged: fairness, economic impact, enforceability, examining proposals for both radical change (replacement of the income tax with a flat tax or consumption tax) and incremental changes to the current system and concluding with a voter's guide, the book provides readers with enough background to make informed judgments about how we should tax ourselves. Praise for earlier editions: An excellent book, Jeff Medrick, New York Times. A fair minded exposition of a politically loaded subject, Kirkus Reviews. **WTO's Extraterritorial Income Decision** United States. Congress. House. Committee on Ways and Means, 2002. **Mid-session Hearings for Fiscal Year 2015** United States. Congress. Senate. Committee on the Budget, 2014. **Miscellaneous Tax Reforms** United States. Congress. House. Committee on Ways and Means, 1996. Reform of U.S. International Taxation Jane Gravelle, 2015. This report describes and assesses the principal prescriptions that have been offered for broad reform of the international system. It begins with an overview of current law and possible revisions. It then sets the framework for considering economic efficiency as well as tax shelter activities. Finally, it reviews alternative approaches to revision in light of those issues. Tax Notes International, 2007. **Advanced Introduction to Taxation** George R. Zodrow, 2025-01-09. George Zodrow offers a fresh look at taxation from a public economics perspective focusing on how taxes affect economic behaviour and impact the decisions of both households and businesses. **Taxation and Tax Policy Issues** Brian L. Yoshov, 2007. In 2005 Americans paid about 2.1 trillion in combined

federal taxes including income payroll and excise taxes or about 16.8 percent of the Gross Domestic Product GDP. These taxes fund the services provided by government. As taxpayers we balance the costs of taxes with the benefits of government. The goal of tax policy is to design a tax system that produces the desired amount of revenue and balances the minimization of compliance and efficiency costs with other objectives such as equity, transparency, and administrability. This book examines the detail which is where vested interests do their damage.

Energy Tax Policy and Tax Reform United States. Congress. House. Committee on Ways and Means. Subcommittee on Select Revenue Measures, 2012

The Rise of the Value-Added Tax Kathryn James, 2015-04-30 Explores how the value added tax VAT has risen from relative obscurity to become one of the world's most dominant revenue instruments

Immigration Reform Issues in the 111th Congress Ruth Ellen Wasem, 2010 This report synthesizes the multi-tiered debate over immigration reform into key elements: legal immigration, legalization, immigration control, refugees, asylees, and humanitarian migrants, and alien rights, benefits, and responsibilities. It delineates the issues for the 111th Congress on permanent residence, temporary admissions, border security, worksite enforcement, employment eligibility, verification, document fraud, criminal aliens, and the grounds for inadmissibility.
