Handbook of Open Universities Around the World Sanjaya Mishra, Santosh Panda, 2025-06-27 The Handbook of Open Universities Around the World is the first collection to provide a comprehensive and critical overview of open universities internationally. Over 80 open universities have been established across five continents to provide a distance orientated class inclusive and high quality education for learners left behind by existing formal systems for higher and continuing education and lifelong learning. This mission has been continually reshaped by major developments in open education learning technologies and online social networking as well as by the evolution of specific concerns such as the massification of education, employability, financial trends, artificial intelligence and development agendas on the regional, national and global levels. This landmark volume analyzes and reflects on the planning, organization, management, pedagogic, skilling and employability and accreditation dimensions of 47 open universities in relation to their national and institutional contexts, the internationalization of education and the integration of advanced learning technologies. Featuring contributions by internationally recognized scholars, practitioners and educational administrators, this authoritative resource provides insights into the business model, finances, operations, instructional systems, enrollment patterns, learner supports, quality assurance, professional development and more of today's open universities. Through historical trajectories, institutional profiles, case studies, lessons learned and best practices, this book provides rich analytical perspectives on the status and challenges of single mode distance learning universities as an educational phenomenon while unpacking the premise of openness itself. This Handbook is primarily written for planners, managers, administrators, instructional designers and teaching faculty at single mode distance teaching universities who are seeking to sustain their institutions in a period of rapid change; government policymakers, training organizations, technology providers and education think tanks who are in need of authentic and research based information on technology enabled learning modeled by open universities around the world and graduate students, teaching faculty and scholars who are affiliated with online and distance education, learning design and technology, higher education planning and management, adult education and lifelong learning and education policy and future studies. Chapter 54 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license. documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Ambivalent Patricia Hayes, Gary Minkley, 2019-11-12 Going beyond photography as an isolated medium to engage larger questions and interlocking forms of expression and historical analysis *Ambivalent* gathers a new generation of scholars based on the continent to offer an expansive frame for thinking about questions of photography and visibility in Africa The volume presents African relationships with photography and with visibility more generally in ways that engage and disrupt the easy categories and genres that have characterized the field to date Contributors pose new questions concerning the instability of the identity photograph in South Africa ethnographic photographs as potential history humanitarian discourse from the perspective of photographic survivors of atrocity photojournalism the nuanced passage from studio to screen in postcolonial digital portraiture and the burgeoning visual activism in West Africa As the contributors show photography is itself a historical subject it involves arrangement financing posture positioning and other kinds of work that are otherwise invisible By moving us outside the frame of the photograph itself by refusing to accept the photograph as the last word this book makes photography an engaging and important subject of historical investigation *Ambivalent*'s contributors bring photography into conversation with orality travel writing ritual psychoanalysis and politics with new approaches to questions of race time and postcolonial and decolonial histories Contributors George Emeka Agbo Isabelle de Rezende Jung Ran Forte Ingrid Masondo Phindi Mnyaka Okechukwu Nwafor Vilho Shigwedha Napandulwe Shiweda Drew Thompson

Ebhuoma, Llewellyn Leonard, 2022-06-04 This book investigates indigenous knowledge systems IKS in sub-Saharan Africa thereby highlighting its role in facilitating adaptation to climate variability and change and also demystifying the challenges that prevent it from being integrated with scientific knowledge in climate governance schemes Indigenous people and their priceless knowledge rarely feature when decision makers prepare for future climate change This book showcases how Indigenous knowledge facilitates adaptation to climate change including how collaborations with scientific knowledge have cascaded into building people's resilience to climatic risks This book also pays delicate attention to the factors fueling epistemic injustice towards Indigenous knowledge which hampers it from featuring in climate governance schemes across sub-Saharan Africa The key insights shared in this book illuminate the issues that contribute meaningfully towards the actualisation of the UN SDG 13 and promote mechanisms for raising capacity for effective climate change related planning and management in sub-Saharan Africa **150 Years of Pymont Peninsula** Colin F. Fowler, 2017-11-30 St Bede's

Catholic Church in Pymont Street is the oldest continuously functioning church on the Pymont peninsula The Sydney Morning Herald article on the laying of the foundation stone 7 2 1867 stated that when completed the new church would be a very neat and elegant structure **The Use and Abuse of the Spirit in Pentecostalism** Mookgo S. Kgatle, Allan H.

Anderson, 2020-11-29 This book is a pneumatological reflection on the use and abuse of the Spirit in light of the abuse of religion within South African Pentecostalism Both emerging and well established scholars of South African Pentecostalism are brought together to reflect on pneumatology from various approaches which includes among others historical biblical migration commercialisation of religion discernment of spirits and human flourishing From a broader understanding of the function of the Holy Spirit in different streams of Pentecostalism the argument is that this function has changed with the emergence of the new Prophetic churches in South Africa This is a fascinating insight into one of the major emerging worldwide religious movements As such it will be of great interest to academics in Pentecostal Studies Christian Studies Theology and Religious Studies as well as African Studies and the Sociology of Religion **Contemporary Development**

Issues in Nigeria Olayinka Akanle, A.O. Olutayo, A.O. Omobowale, 2015-04-01 Africa today confronts and is known for daunting developmental challenges despite the abundant human and material resources and significant global development assistance A number of issues have been identified as causes of the continent's poor development performance However a number of these implicated issues have been insufficiently unaccounted for and the majority of existing analysis on them is too generic and misinformed Against this background this book uses Nigeria as an example to contribute knowledge and

informed research to the wider African continent Nigeria is the most populous nation in Africa and is one of the continent's most resource endowed countries but despite this it is one of the poorest countries in the entire world While many studies have examined the country in depth its continued development complications and its paradoxical status on the world stage suggest that there is still a need to better understand the country Even though the issues of Nigeria are engaged with directly in this book the findings have implications and relevance for the rest of the continent and many other developing countries in general As such this book will be of particular interest to all development students scholars practitioners and policy makers especially those interested in the sustainable development of Africa both now and in the future

Mission, Science, and Race in South Africa Keith Snedegar, 2015-09-17 This is a biographical study of Alexander William Roberts a Free Church of Scotland missionary educator who in 1883 was posted to the Lovedale Institution at Alice South Africa Inspired by the night sky of the southern hemisphere Roberts became a leading observer of variable stars and an early contributor to the theory of close interacting binary stars He actively promoted the development of colonial scientific culture and was elected president of the South African Association for the Advancement of Science in 1913 His teaching career at Lovedale fostered a commitment to the interests of his African students and their communities In 1920 Roberts was appointed to the South African senate to represent native Africans he also served as senior member of the Native Affairs Commission Despite his liberal instincts he acquiesced to the movement toward racial segregation as advanced in the Natives Urban Areas and Native Administration Acts Roberts nonetheless militated against the erosion of the Cape non racial franchise rights he resigned from the Native Affairs Commission just as the all white parliament was poised to remove Africans from the common voters roll His engagement with the politics of race interfered with Roberts's astronomical research Although he published nearly one hundred papers in scientific journals most of his observational data remained unknown until the Boyden Observatory's Roberts archive was digitized in 2006 His influence as a mission educator also has been little known although among his pupils were journalist and academic D D T Jabavu the physician James Moroka and Swazi king Sobhuza I
