determining and comparing their current influence in the various regions of the world and by assessing their potential roles in the future The book contains papers that were presented during a symposium held in Zurich in 2016 which brought together experts and stakeholders from a range of disciplines and world regions Some fundamental issues that are addressed by the contributors are as old as the two covenants themselves They concern for example the division of human rights into first and second generation rights and the question of whether there should be one central monitoring body possibly a world court or more than just one However the contributors go beyond such questions that have been explored before they develop new answers to old questions and point to new challenges
