Methods      *Dominance and Decline* Susan Booysen, 2015-10-01 As Jacob Zuma moves into the twilight years of his presidencies of both the African National Congress ANC and of South Africa this book takes stock of the Zuma led administration and its impact on the ANC *Dominance and Decline The ANC in the Time of Zuma* combines hard hitting arguments with astute analysis Susan Booysen shows how the ANC has become centred on the personage of Zuma and that its defence of his extremely flawed leadership undermines the party's capacity to govern competently and to protect its long term future Following on from her first book *The African National Congress and the Regeneration of Power* 2011 Booysen delves deeper into the four faces of power that characterise the ANC Her principal argument is that the state is failing as the president's interests increasingly supersede those of party and state Organisationally the ANC has become a hegemon riven by factions as the internal blocs battle for core positions of power and control Meanwhile the Zuma controlled ANC has witnessed the implosion of the tripartite alliance and decimation of its youth women's and veterans leagues Electorally the leading party has been ceding ground to increasingly assertive opposition parties And on the policy front it is faltering through poor implementation and a regurgitation of old ideas As Zuma's replacements start competing and succession politics take shape Booysen considers whether the ANC will recover from the damage wrought under Zuma's reign and attain its former glory Ultimately she believes that while the damage is irrevocable the electorate may still reward the ANC for transcending the Zuma years This is a must have reference book on the development of the modern ANC With rigour and incisiveness Booysen offers scholars and researchers a coherent framework for considering future patterns in the ANC and its hold on political power
