Blind Spot Salmaan Keshavjee, 2014-08-16 Neoliberalism has been the defining paradigm in global health since the latter part of the twentieth century What started as an untested and unproven theory that the creation of unfettered markets would give rise to political democracy led to policies that promoted the belief that private markets were the optimal agents for the distribution of social goods including health care A vivid illustration of the infiltration of neoliberal ideology into the design and implementation of development programs this case study set in post Soviet Tajikistan's remote eastern province of Badakhshan draws on extensive ethnographic and historical material to examine a revolving drug fund program used by numerous nongovernmental organizations globally to address shortages of high quality pharmaceuticals in poor communities Provocative rigorous and accessible Blind Spot offers a cautionary tale about the forces driving decision making in health and development policy today illustrating how the privatization of health care can have catastrophic outcomes for some of the world's most vulnerable populations

Global Health Studies Louise Warwick-Booth, Ruth Cross, 2018-05-21 A global view of health offers a richer understanding of ways of measuring improving and sustaining health both in individual national settings and in the context of a strongly interconnected world This book draws on social scientific insights and explanations to examine trends in global health Moving beyond an epidemiological analysis the authors use a social determinants framework and life course approaches to offer a critical introduction to the study of global health Through individual chapters focusing on topics such as health policy global governance health systems and health related protests the authors present the scope of global health studies and introduce readers to broader ranging issues such as

globalization and political forces Key themes such as power inequality and inequity and their impact on health on a global scale recur throughout the book International examples and case studies are used to illustrate the discussion which is further supported by opportunities for reflection and further reading This book will be an important resource for students studying global health and will have broad relevance to those undertaking health related and allied health professional courses

Research Handbook on Global Health Law Gian Luca Burci, Brigit Toebes, 2018-11-30 The effect of Globalization on health has attracted the attention of scholars and policy makers across multiple disciplines A key concern is the regulation of international health protection and in particular the use of international health instruments and the complex interaction between international law and health considerations For the first time a group of law and policy scholars have analysed these issues drawing on knowledge from their respective fields The resulting book provides comprehensive coverage of contemporary issues in global health law and governance

Black Women's Stories of Everyday Racism Simone Drake, James Phelan, Robyn Warhol, Lisa Zunshine, 2024-04-09 *Black Women's Stories of Everyday Racism* puts literary narrative theory to work on an urgent real world problem The book calls attention to African American women's everyday experiences with systemic racism and demonstrates how four types of narrative theory can help generate strategies to explain and dismantle that racism This volume presents fifteen stories told by eight midwestern African American women about their own experiences with casual and structural racism followed by four detailed narratological analyses of the stories each representing a different approach to narrative interpretation The book makes a case for the need to hear the personal stories of these women and others like them as part of a larger effort to counter the systemic racism that prevails in the United States today Readers will find that the women's stories offer powerful evidence that African Americans experience racism as an inescapable part of their day to day lives and sometimes as a force that radically changes their lives The stories provide experience based demonstrations of how pervasive systemic racism is and how it perpetuates power differentials that are baked into institutions such as schools law enforcement the health care system and business Containing countless signs of the stress and trauma that accompany and follow from experiences of racism the stories reveal evidence of the women's resilience as well as their unending need for it as they continue to feel the negative effects of experiences that occurred many years ago The four interpretive chapters note the complex skill involved in the women's storytelling The analyses also point to the overall value of telling these stories how they are sometimes cathartic for the tellers how they highlight the importance of listening and the likelihood of misunderstanding and how if they and other stories like them were heard more often they would be a force to counteract the structural racism they so graphically expose The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license
