**The Waste of the World** Nicky Gregson,2023-05-09 Despite frequent claims that waste is being reduced consumer reliant economies everyday consumption and the waste industry continue to produce and demand more waste Combining a lucid style with robust empirical and theoretical research this book examines the root causes of the global waste problem rather than simply the symptoms It challenges existing waste policies highlighting what needs to change if we are to get serious in tackling this global problem It concludes with policy implications for shifting waste from an end of pipe concern to being at the heart of the debate over decarbonization

*Flat-Panel Displays and CRTs* Lawrence E. Tannas,2012-12-06 Flat Panel Displays and CRTs a review of electronic information display devices is the first systematic and comprehensive coverage of the subject It is intended to distill our wealth of knowledge of flat panel displays and CRTs from their beginnings to the present state of the art Historical perspective theory of operation and specific applications are all thoroughly covered The field of display engineering is a multidisciplined technical pursuit with the result that its individual disciplines suffer from a lack of communications and limited perspective Many previously developed standards for and general understanding of one technology are often inappropriate for another Care has been taken here to document the old incorporate the new and emphasize commonalities Criteria for performance have been standardized to enable an expert in one display technology such as liquid crystals to compare his device performance with that offered by another technology such as electroluminescence This book has been written with a second purpose in mind to wit to be the vehicle by means of which a new scientist or engineer can be introduced into the display society It is organized to be tutorial for use in instructional situations The first chapters begin with first principles and definitions the middle chapters set out requirements and criteria and the last chapters give a complete description of each major technology
