*Fiction, Famine, and the Rise of Economics in Victorian Britain and Ireland* Gordon Bigelow, 2003-11-20 We think of economic theory as a scientific speciality accessible only to experts but Victorian writers commented on economic subjects with great interest Gordon Bigelow focuses on novelists Charles Dickens and Elizabeth Gaskell and compares their work with commentaries on the Irish famine 1845 1852 Bigelow argues that at this moment of crisis the rise of economics depended substantially on concepts developed in literature These works all criticized the systematized approach to economic life that the prevailing political economy proposed Gradually the romantic views of human subjectivity described in the novels provided the foundation for a new theory of capitalism based on the desires of the individual consumer Bigelow s argument stands out by showing how the discussion of capitalism in these works had significant influence not just on public opinion but on the rise of economic theory itself Political Economy and the Novel Sarah Comyn, 2018-10-04 Political Economy and the Novel A Literary History of Homo Economicus provides a transhistorical account of homo economicus economic man demonstrating this figure s significance to economic theory and the Anglo American novel over a 250 year period Beginning with Adam Smith s seminal texts *Theory of Moral Sentiments* and *The Wealth of Nations* and Henry Fielding s *A History of Tom Jones* this book combines the methodologies of new historicism and new economic criticism to investigate the evolution of the homo economicus model as it traverses through Ricardian economics and Jane Austen s *Sanditon* J S Mill and Charles Dickens engagement with mid Victorian dualities Keynesianism and Mrs Dalloway s exploration of post war consumer impulses the a moralistic discourses of Friedrich von Hayek and Ayn Rand s *Atlas Shrugged* and finally the virtual crises of the twenty first century financial market and DonDeLillo s *Cosmopolis* Through its sustained comparative analysis of literary and economic discourses this book transforms our understanding of the genre of the novel and offers critical new understandings of literary value cultural capital and the moral foundations of political economy The Victorian Novel, Service Work, and the Nineteenth-Century Economy Joshua Gooch, 2015-08-13 This book offers a much needed study of the Victorian novel s role in representing and shaping the service sector s emergence Arguing that prior accounts of the novel s relation to the rise of finance have missed the emergence of a wider service sector it traces the effects of service work s many forms and class positions in the Victorian novel **Downward Mobility** Katherine Binhammer, 2020-04-28 How do the stories we tell about money shape our economies Beginning in the late eighteenth century as constant growth became the economic norm throughout Europe fictional stories involving money were overwhelmingly about loss Novel after novel tells the tale of bankruptcy and financial failure of people losing everything and ending up in debtor s prison of inheritances lost and daughters left orphaned and poor In *Downward Mobility* Katherine Binhammer argues that these stories of ruin are not simple tales about the losers of capitalism but narratives that help manage speculation of capital s inevitable collapse

Bringing together contemporary critical finance studies with eighteenth century literary history Binhammer demonstrates the centrality of the myth of downward mobility to the cultural history of capitalism and to the emergence of the novel in Britain Deftly weaving economic history and formal analysis Binhammer reveals how capitalism requires the novel's complex techniques to render infinite economic growth imaginable She also explains why the novel's signature formal developments owe their narrative dynamics to the contradictions within capital's form Combining new archival research on the history of debt with original readings of sentimental novels including Frances Burney's *Cecilia* and Camilla Sarah Fielding's *David Simple* and Oliver Goldsmith's *The Vicar of Wakefield* *Downward Mobility* registers the value of literary narrative in interpreting the complex sequences behind financial capitalism especially the belief in infinite growth that has led to current environmental crises An audacious epilogue arms humanists with the argument that in order to save the planet from unsustainable growth we need to read more novels

*Victorian Jewelry, Identity, and the Novel* Jean Arnold, 2016-03-16 In this study of Victorian jewels and their representation Jean Arnold explores the role material objects play in the cultural cohesion of the West Diamonds and other gems Arnold argues symbolized the most closely held beliefs of the Victorians and thus can be considered prisms of culture Mined in the far reaches of the empire they traversed geographical space and cultural boundaries representing monetary value and evoking empire class lineage class membership gender relations and aesthetics Arnold analyzes the many roles material objects fill in Western culture and surveys the cross cultural history of the Victorian diamond uncovering how this object became both preeminent and representative of Victorian values Her close readings of Wilkie Collins's *The Moonstone* George Eliot's *Middlemarch* William Makepeace Thackeray's *The Great Hoggarty Diamond* and Anthony Trollope's *The Eustace Diamonds* show gendered aesthetic economic fetishistic colonial legal and culturally symbolic interpretations of jewelry as they are enacted through narrative Taken together these divergent interpretations offer a holistic view of a material culture's affective attachment to objects As the assigned meanings of jewels turn them into symbols of power personal relationships and valued ideas human interactions with gems elicit emotional responses that bind the materialist culture together

**The 'Invisible Hand' and British Fiction, 1818-1860** E. Courtemanche, 2011-04-12 The invisible hand Adam Smith's metaphor for the morality of capitalism is explored in this text as being far more subtle and intricate than is usually understood with many British realist fiction writers Austen Dickens Gaskell Eliot having absorbed his model of ironic causality in complex societies and turned it to their own purposes

**The Player Piano and the Edwardian Novel** Cecilia Bjorken-Nyberg,2016-03-03 In her study of music making in the Edwardian novel Cecilia Bjorken-Nyberg argues that the invention and development of the player piano had a significant effect on the perception performance and appreciation of music during the period In contrast to existing devices for producing music mechanically such as the phonograph and gramophone the player piano granted its operator freedom of individual expression by permitting the performer to modify the tempo Because the traditional piano was the undisputed altar of domestic and highly gendered music making Bjorken-Nyberg suggests the potential for intervention by the mechanical piano s operator had a subversive effect on traditional notions about the status of the musical work itself and about the people who were variously defined by their relationship to it She examines works by Dorothy Richardson E M Forster Henry Handel Richardson Max Beerbohm and Compton Mackenzie among others contending that Edwardian fiction with music as a subject undermined the prevalent antithesis expressed in contemporary music literature between a nineteenth century conception of music as a means of transcendence and the increasing mechanisation of music as represented by the player piano Her timely survey of the player piano in the context of Edwardian commercial and technical discourse draws on a rich array of archival materials to shed new light on the historically conditioned activity of music making in early twentieth century fiction

*Novel Craft* Talia Schaffer, 2011-01-15 *Novel Craft* explores an intriguing and under studied aspect of cultural life in Victorian England domestic handicrafts the decorative pursuit that predated the Arts and Crafts movement Talia Schaffer argues that the handicraft movement served as a way to critique the modern mass produced commodity and the rapidly emerging industrial capitalism of the nineteenth century Her argument is illustrated with the four pivotal novels that form her study's core Gaskell's *Cranford* Yonge's *The Daisy Chain* Dickens's *Our Mutual Friend* and Oliphant's *Phoebe Junior* Each features various handicrafts that subtly aim to subvert the socioeconomic changes being wrought by industrialization Schaffer goes beyond straightforward textual analysis by shaping each chapter around the individual craft at the center of each novel paper for *Cranford* flowers and related arts in *The Daisy Chain* rubbish and salvage in *Our Mutual Friend* and the contrasting ethos of arts and crafts connoisseurship in *Phoebe Junior* The domestic handicraft also allows for self referential analysis of the text itself in scenes of craft production and destruction the authors articulate the work they hope their own fictions perform The handicraft also becomes a locus for critiquing contemporary aesthetic trends with the novels putting forward an alternative vision of making value and understanding art A work that combines cultural history and literary studies *Novel Craft* highlights how attention to the handicraft movement's radically alternative views of materiality consumption production representation and subjectivity provides a fresh perspective on the major changes that shaped the Victorian novel as a whole
