Food & Society Amy E. Guphill, Denise A. Copelton, Betsy Lucal, 2022-11-02 This popular text now in a third edition offers readers a vivid perspective on the cultural and social complexities of food practices and the current food system. Synthesizing insights from the multidisciplinary field of food studies, this book engages readers' curiosity by highlighting the seeming paradoxes of food: how food is both individual and social, reveals both distinction and conformity, and in the contemporary era seems to come from everywhere but nowhere in particular. Each chapter begins with an intriguing case study and ends with suggested resources and activities. Chapter topics include identity, restaurants and food media, health marketing, industrialization, global food surplus and scarcity, and social change. Updates and enhancements in this edition reflect new scholarly insights into how food is involved in social media, social movements, and the COVID-19 pandemic. Throughout, the book blends concepts and empirical accounts to address the central issues of culture, structure, and social inequality. Written in a lively, accessible style, this book provides students with an unrivalled and multifaceted introduction to this fascinating aspect of social life.

Meatsplaining Jason Hannan, 2020-10-01 The animal agriculture industry, like other profit-driven industries, aggressively seeks to shield itself from public scrutiny. To that end, it uses a distinct set of rhetorical strategies to deflect criticism. These tactics are fundamental to modern animal agriculture but have long evaded critical analysis. In this collection, academic and activist contributors investigate the many forms of denialism perpetuated by the animal agriculture industry. What strategies does the industry use to avoid questions about its inhumane treatment of animals and its impact on the environment and public health? What narratives, myths, and fantasies does it promote to sustain its image in the public imagination? Powerful, timely, and essential.

David Nibert, author of *Animal Oppression and Human Violence*, *Domesecration*, *Capitalism and Global Conflict*. *Meatsplaining* equips us to identify the lies at the heart of animal agriculture. It is an excellent and timely compilation on an exceedingly vexing problem.

Carol J. Adams, author of *The Sexual Politics of Meat* and *Burger*. *Meatsplaining* is the first book to give an apt name to the animal agriculture industry's relentless campaign of disinformation and denialism. Written in a clear, lively, and accessible style, *Meatsplaining* will surely educate the public about the horrors of animal agriculture.

Marc Bekoff, author of *The Animals Agenda*, *Freedom*, *Compassion*, and *Coexistence in the Human Age*. Cruelty thrives in secrecy, and the meat industry is highly skilled at concealing the routine abuse and misery that flourishes on modern farms. *Meatsplaining* cuts through the spin and exposes the meat industry's massive PR machine. It explores how Big Meat uses language, obfuscation, and denial to misdirect the public's attention away from its commodification of sentient animals, environmental devastation, and the looming health crisis caused by eating animals. This book is a must-read for animal advocates and anyone else who no longer wants to be lied to.

Camille Labchuk, Executive Director, Animal Justice. This book provides a necessary corrective to the fantasy world created by meat industry propaganda.
