Creative Insecurity Dania Thafer, 2023-06-23 The Middle East is experiencing the world's most prominent youth bulge. Yet many MENA economies' institutional designs, both formal and informal, favour the power of business elites systematically discriminating against young people joining the workforce or opening businesses and thus limiting their ability to contribute to innovation. Large youth populations can be a boon or a curse: nurtured and integrated, they can jumpstart stratospheric growth; but if alienated and confined, they can drain a society politically and economically. The Gulf Cooperation Council countries are no exception to this perilous dilemma. This book explores the problem through a new concept: creative insecurity, a state's subjection to an institutional ecosystem that is suppressing opportunities for innovation to the extent that it is causing economic and political vulnerabilities which in turn threaten national security. Creative insecurity threatens the longevity of many states today. In this original incisive study, Dania Thafer argues that GCC member states should make it a national security imperative to cash in their demographic dividend by averting the deleterious effects of ill-disposed elite politics. Investing in an innovation ecosystem that harnesses the talent of the youth majority will be crucial for the GCC's successful transition to the post-oil era.

But Will It Fly? Iver P. Cooper, 2025-09-17 Conventional aircraft today are propelled by the action of propellers or jets and powered by the internal combustion of petroleum fuels in piston, turboprop or jet engines. But other power sources, powerplants and propulsion devices for airships as well as aircraft have been proposed and even experimented with over the last few centuries. The power sources considered include human muscles, steam, batteries, nuclear reactors and hydrogen fuel, and the propulsion devices include sails, oars, flapping wings, rockets and cycloidal propellers. This meticulously researched book presents the history of these unconventional aerial power and propulsion systems, explains the underlying science and technology behind them, and assesses the crucial question of practicality.

Yearbook of International Humanitarian Law, Volume 24 (2021) Heike Krieger, Pablo Kalmanovitz, Eliav Lieblich, Rebecca Mignot-Mahdavi, 2023-01-01 Volume 24 of the Yearbook of International Humanitarian Law (IHL) is dedicated to investigating IHL's universalist claims from different perspectives and regarding different areas of IHL. While academic debates about universalism versus particularism have dominated much of the critical scholarship in international law over the past two decades, they remain relatively underexplored in the field of IHL. The current volume fills this gap in IHL literature by focusing on the ways in which different interpretive communities approach questions of IHL from differing perspectives. Authors were invited to use the concept of culture to deconstruct and take critical distance from the production

interpretation and application of IHL and those keen on challenging the idea that IHL needs critical deconstruction were also invited to argue their case. The Volume contains four articles dedicated to the subject of cultures of IHL. It also features a book symposium on Samuel Moyn's *Humane How The United States Abandoned Peace and Reinvented War* 2021 and ends as usual with a Year in Review section. The Yearbook of International Humanitarian Law is a leading annual publication devoted to the study of international humanitarian law. The Yearbook has always strived to be at the forefront of the debate of pressing doctrinal questions of IHL and will continue to do so in the future. As this volume shows, it is also a forum for taking a step back and reflecting on the broader theoretical issues that inform the practice and thinking about the field. The Yearbook provides an international forum for high quality peer reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, it bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, civil servants, diplomats, human rights workers, and students.
