Military Occupational Specialties Manual (MOS Manual). United States. Marine Corps,1992 The Amphigeo Story Mark Roehrig,2002 Amphibious vehicles were some of the first self propelled vehicles ever created going all the way back to 1805 The only Factory produced amphibian was the Amphicar in the 60 s Just some of the facts about amphibians that are dispelled in The Amphigeo Story Today more than ever the world is ready for such a vehicle one that you can drive around doing errands as well as tear down a boat ramp into the froth The Amphigeo is for the masses two thirds of the planet is covered in water and 70% of the world s population lives on the water or very near Why then should it be we have to own a boat and a car to take advantage of both mediums of transportation Not anymore Mark Roehrig has developed the simplest conversion ever conceived for putting a car into the water His Amphigeo took just 5 months to build his second would only take about 3 months for now he knows all the secrets and shortcuts which is exactly what prompted him to write The Amphigeo Story Now anyone can own an amphibious car at the lowest price ever imagined in fact the Amphigeo is just that the world s best bargain in an amphibian The Amphigeo makes use of many of the original parts including engine transmission CV axles steering suspension seats dash radiator fans fuel tank and more This car has changed his life everywhere he goes crowds gather the press and TV has loved doing the story But Mark will tell you none of that surpasses driving in the water it is his ultimate reward and after 2 years the Amphigeo s design has proved reliable If you re ready for the experience of a lifetime this books for you you could build an Amphigeo or have one built but owning one will definitely put an end to the everyday doldrums Any car can drive into the water only a good one can drive out again *Defense Demilitarization Manual* United States.
