guide to the houses and museums that memorialize their accomplishments When the Magisterium Intervenes Richard R. Gaillardetz, 2012-05-01 Catholicism has always recognized the need for a normative doctrinal teaching authority Yet the character scope and exercise of that authority what has come to be called the magisterium has changed significantly over two millennia This book gathers contributions from leading Catholic scholars in considering new factors that must be taken into account as we consider the church's official teaching authority in today's postmodern context Noted experts in their fields cover many intriguing topics here including the investigation of theologians that has occurred in recent years canonical perspectives on such investigations the role that women religious have played in these issues the place of the media when problems arise and possible future ways forward The book concludes with The Elizabeth Johnson Dossier a selection of documents essential to understanding the case of Elizabeth Johnson CSJ whose work was recently the subject of severe criticism by the United States Conference of Catholic Bishops Contributors include Bradford Hinze James Coriden Colleen Mallon Ormond Rush Gerard Mannion Anthony Godzieba Vincent Miller Richard Gaillardetz and Elizabeth Johnson **The Purposeful Graduate** Timothy Thomas Clydesdale, Tim Clydesdale, 2016-09-08 American higher education is more expensive than ever and the rewards seem to be diminishing daily Sociologist Tim Clydesdale's new book however offers some rare good news when colleges and universities meaningfully engage their organizational histories to launch sustained conversations with students about questions of purpose the result is a rise in overall campus engagement and recalibration of post college trajectories that set graduates on journeys of significance and impact The book is based on a study of programs launched at 88 colleges and universities that invited students faculty staff and administrators to incorporate questions of meaning and purpose into the undergraduate experience The results were so positive that Clydesdale came away from the study arguing that every campus religious or not should engage students in a broad conversation about what it means to live an examined life This conversation needs to be creative intentional systematic and wide ranging he says because for too long this core liberal educational task has been relegated to the margins and its attendant religious or spiritual discourse banished from classrooms and quads to the detriment of higher education's virtually universal mission graduates marked by thoughtfulness productivity and engaged citizenship **Faith with Benefits** Jason King, 2017-01-02 Hookup culture has become widespread on college campuses and Catholic colleges are no exception Indeed despite the fact that most students on Catholic campuses report being unhappy with casual sexual encounters most studies have found no difference between Catholic colleges and their secular counterparts when it comes to hooking up Drawing on a survey of over 1000 students from 26 institutions as well as in depth interviews Jason King argues that religious culture on Catholic campuses can in fact have an impact on the school's hookup culture but when it comes to how that relationship works it's complicated In Faith with Benefits King shows the complex way these dynamics play out at Catholic colleges and universities There is no straightforward relationship between orthodoxy and hookup culture some of the schools with the weakest Catholic identities

also have weaker hookup cultures And not all students define the culture in the same way Some see a hookup as just a casual encounter where others see it as a gateway to a relationship Faith with Benefits gives voice to students revealing how their faith the faith of their friends and the institutional structures of their campus give rise to different hookup cultures In doing so King addresses the questions of students who don't know where to turn for practical guidance on how to navigate ever shifting campus cultures reconciling their faith with their relationships Students parents faculty administrators indeed anyone who cares about Catholic teenagers and young adults will find much of value in this book Venerable John Neumann, C.S.S.R. Michael Joseph Curley,1952 **Guide to Distance Learning Programs** University Continuing Education Association,2001 *University Rankings* Jung Cheol Shin,Robert K. Toutkoushian,Ulrich Teichler,2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties *The Global Phenomenon of Family-Owned or Managed Universities* Philip G. Altbach,Edward Choi,Mathew R. Allen,Hans de Wit,2019-12-30 Although an entirely unknown part of higher education worldwide there are literally hundreds of universities that are owned managed by families around the world These institutions are an important subset of private universities the fastest growing segment of higher education worldwide Family owned or managed higher education institutions FOMHEI are concentrated in developing and emerging economies but also exist in Europe and North America This book is the first to shed light on these institutions there is currently no other source on this topic Who owns a university Who is in charge of its management and leadership How are decisions made The answers to these key questions would normally be governments or non profit boards of trustees or recently for profit corporations There is another category of post secondary institutions that has emerged in the past half century challenging the time honored paradigm of university ownership Largely unknown as well as undocumented is the phenomenon of family owned or managed higher education institutions In Asia and Latin America for example FOMHEIs have come to comprise a significant segment of a number of higher education systems as seen in the cases of Thailand South Korea India Brazil and Colombia We have identified FOMHEIs on all continents ranging from well regarded comprehensive universities and top level specialized institutions to marginal schools They exist both in the non profit and for profit sectors **Words Made Flesh** R. Jared Staudt,2024-06

Forming souls and building culture together form the sacramental mission of Catholic education. These profoundly related goals are laid out by the Church for education following the general sacramental principle that permeates the whole of Catholic life. This approach seeks conformity to the Logos, the divine mind that shapes the way disciples think, imagine, and pray. Guided by this approach, the student will be able to contemplate the truth of reality in a holistic and integrated fashion. As sacramental, it also leads to a concrete embodiment in the life of the Christian community and the daily actions of the disciple. A sacramental approach to education draws together the inner and outer life, mind and body, soul and culture, prayer and work, salvation and mission, the individual and community. For the future of society and renewal within the Church, we need nothing less than a reintegration of the person and our communities through the renewal of education, forming students deeply rooted in our heritage and prepared to hand it on in creative ways.

Unequal Colleges in the Age of Disparity Charles T. Clotfelter, 2017-10-30 Based on quantitative comparisons of colleges since the 1970s, Charles Clotfelter reveals that despite the civil rights revolution, billions spent on financial aid, and the commitment of colleges to greater equality, stratification in higher education has grown starker. He explains why undergraduate education unequal in 1970 is even more so today.
