Nevada By Imogen Binnie:

Nevada Imogen Binnie, 2022-06-07 One of The Atlantic's Great American Novels *Nevada* is defiant, terse, not quite cynical, sometimes flip, addressed to people who think they know it. It is, if you like, punk rock. The New Yorker *Nevada* is a book that changed my life; it shaped both my worldview and personhood, making me the writer I am. And it did so by the oldest of methods: by telling a wise, hilarious, and gripping story. Torrey Peters, author of *Detransition, Baby*, a beloved and blistering cult classic and finalist for the Lambda Literary Award for Transgender Fiction, finally back in print. *Nevada* follows a disaffected trans woman as she embarks on a cross-country road trip. Maria Griffiths is almost thirty and works at a used bookstore in New York City while trying to stay true to her punk values. She's in love with her bike but not with her girlfriend Steph. She takes random pills and drinks more than is good for her but doesn't inject anything except when she remembers estrogen because she's trans. Everything is mostly fine until Maria and Steph break up, sending Maria into a tailspin and then onto a cross-country trek in the car she steals from Steph. She ends up in the backwater town of Star City, Nevada, where she meets James, who is probably but not certainly trans and who reminds Maria of her younger self. As Maria finds herself in the awkward position of trans role model, she realizes that she could become James's savior or his downfall. One of the most beloved cult novels of our time and a landmark of trans literature, Imogen Binnie's *Nevada* is a blistering, heartfelt, and evergreen coming-of-age story and a punk-smeared excavation of marginalized life under capitalism. Guided by an instantly memorable terminally self-aware protagonist and back in print featuring a new afterword by the author, *Nevada* is the great American road novel flipped on its head for a new generation. *Nevada* Imogen Binnie, 2013 The darkly comedic story of Maria Griffiths, a young trans woman living in New York City and trying to stay true to her punk values while working retail. When she finds out her girlfriend has lied to her, the world she thought she'd carefully built for herself begins to unravel, and Maria sets out on a journey that will most certainly change her forever. Literature, Cinema, and Video Games Juan Francisco Belmonte Ávila, Estíbaliz Encarnación-Pinedo, 2024-07-19 *Unbound Queer Time in Literature, Cinema, and Video Games* investigates the potential of queer conceptions of time to unbind forms of understanding identities. In doing so, it recognizes the power of time to determine us but chooses to queer time and turn it into an ally of unbound forms of understanding identities. Through the analysis of different media—literature, cinema, and video games—the chapters revolve around three key ideas: that there are inherently queer styles of using and dealing with time and temporality in culture; that the critical rediscovery of canonical texts and the analysis of largely ignored queer texts and authors allow for a better understanding of queer identities; and finally, that normative conceptions of time can and should be challenged through critical tools that reconceptualize notions of the self around time. This volume will be of interest to postgraduate students and researchers working close to areas such as queer and gender studies, media and cinema studies, cultural studies, literary theory, comparative literature, game studies, and art history. *Transformed States* Martin

Halliwell, 2024-11-15 Honourable Mention British Association of American Studies Book Award *Transformed States* offers a timely history of the politics, ethics, medical applications, and cultural representations of the biotechnological revolution from the Human Genome Project to the COVID 19 pandemic. In exploring the entanglements of mental and physical health in an age of biotechnology, it views the post Cold War 1990s as the horizon for understanding the intersection of technoscience and culture in the early twenty-first century. The book draws on original research spanning the presidencies of George H W Bush and Joe Biden to show how the politics of science and technology shape the medical uses of biotechnology. Some of these technologies reveal fierce ideological conflicts in the arenas of cloning, reproduction, artificial intelligence, longevity, gender affirmation, vaccination, and environmental health. Interweaving politics and culture, the book illustrates how these health issues are reflected in and challenged by literary and cinematic texts from Oryx and Crake to *Annihilation* and from *Gattaca* to *Avatar*. By assessing the complex relationship between federal politics and the biomedical industry, *Transformed States* develops an ecological approach to public health that moves beyond tensions between state governance and private enterprise. To that end, Martin Halliwell analyzes thirty years that radically transformed American science, medicine, and policy, positioning biotechnology in dialogue with fears and fantasies about an emerging future in which health is ever more contested. Along with the two earlier books *Therapeutic Revolutions* (2013) and *Voices of Mental Health* (2017), *Transformed States* is the final volume of a landmark cultural and intellectual history of mental health in the United States, journeying from the combat zones of World War II to the global emergency of COVID 19.

The Cambridge Companion to Twenty-First Century American Fiction Joshua Miller, 2021-09-23 Reading lists, course syllabi, and prizes include the phrase "21st century American literature," but no critical consensus exists regarding when the period began, which works typify it, how to conceptualize its aesthetic priorities, and where its geographical boundaries lie. Considerable criticism has been published on this extraordinary era, but little programmatic analysis has assessed comprehensively the literary and critical theoretical output to help readers navigate the labyrinth of critical pathways. In addition to ensuring broad coverage of many essential texts, *The Cambridge Companion to 21st Century American Fiction* offers state-of-the-field analyses of contemporary narrative studies that set the terms of current and future research and teaching. Individual chapters illuminate critical engagements with emergent genres and concepts, including flash fiction, speculative fiction, digital fiction, alternative temporalities, Afro-futurism, ecocriticism, transgender/queer studies, anti-carceral fiction, precarity, and post-9/11 fiction.

Woodworking Emily St. James, 2025-03-04 LONGLISTED FOR THE CENTER FOR FICTION FIRST NOVEL PRIZE 2025 Big-hearted and hilarious, an ode to authenticity and a must-read in our current times. Shelby Van Pelt, *New York Times* bestselling author of *Remarkably Bright Creatures*. Writing a funny book is hard. Writing a convincing takedown of one of America's most popular prejudices is harder still. Writing a funny novel in which complex, imperfect characters make a compelling case for one of our culture's most maligned groups that takes smarts and heart. Fortunately for her readers, St.
