*Neo-Impressionism and Anarchism in Fin-de-Siècle France* Robyn Roslak, 2017-07-05 In *Neo Impressionism and Anarchism in Fin de Siècle France* Robyn Roslak examines for the first time the close relationship between neo impressionist landscapes and cityscapes and the anarchist sympathies of the movement's artists. She focuses in particular on paintings produced between 1886 and 1905 by Paul Signac and Maximilien Luce, the neo impressionists whose fidelity to anarchism, to the art of landscape and to a belief in the social potential of art was strongest. Although the neo impressionists are best known for their rational and scientific technique, they also heeded the era's call for art surpassing the mundane realities of everyday life. By tempering their modern subjects with a decorative style, they hoped to lead their viewers toward moral and social improvement. Roslak's ground-breaking analysis shows how the anarchist theories of Elis Reclus, Pierre Kropotkin and Jean Grave both inspired and coincided with these ideals. Anarchism attracted the neo impressionists because its standards for social justice were grounded like neo impressionism itself in scientific exactitude and aesthetic idealism. Anarchists claimed humanity would reach its highest level of social and moral development only in the presence of a decorative variety of nature and called upon progressive thinkers to help create and maintain such environments. The neo impressionists, who primarily painted decorative landscapes, therefore discovered in anarchism a political theory consistent with their belief that decorative harmony should be the basis for socially responsible art.

*The Architecture of Percier and Fontaine and the Struggle for Sovereignty in Revolutionary France* Iris Moon, 2016-11-25 As the official architects of Napoleon, Charles Percier (1764-1838) and Pierre-François-Léonard Fontaine (1762-1853) designed interiors that responded to the radical ideologies and collective forms of destruction that took place during the French Revolution. The architects visualized new forms of imperial sovereignty by inverting the symbols of monarchy and revolution, constructing meeting rooms resembling military encampments and gilded thrones that replaced the Bourbon lily with Napoleonic bees. Yet in the wake of political struggle, each foundation stone that the architects laid for the new imperial regime was accompanied by an awareness of the contingent nature of sovereign power. Contributing fresh perspectives on the architecture, decorative arts and visual culture of revolutionary France, this book explores how Percier and Fontaine's desire to build structures of permanence and their inadvertent reliance upon temporary architectural forms shaped a new awareness of time, memory and modern political identity in France.

*The Egyptian Revival* James Stevens Curl, 2013-04-03 In this beautifully illustrated and closely argued book, a completely updated and much expanded third edition of his magisterial survey, Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day. Drawing on a wealth of sources, his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West. The author deftly develops his argument that the civilization of Ancient Egypt is central rather than peripheral to the development of much of Western architecture, art, design and religion. Curl examines the persistence of Egyptian motifs in

design from Graeco Roman Antiquity through the Medieval Baroque and Neo Classical periods rise of Egyptology in the nineteenth and twentieth century manifestations of Egyptianisms prompted by the discovery of Tutankhamun's tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards For students of art architectural and ancient history and those interested in western European culture generally this book will be an inspiring and invaluable addition to the available literature

*Amor Mundi and Overcoming Modern World Alienation* Justin Pack, 2019-10-17 Love in many premodern cultures extended to and permeated the world or even the cosmos but love in contemporary consumerist society tends to be sexualized romanticized and individualized As a result ancient visions of ethical love are difficult for moderns to comprehend especially those rooted in premodern Western thought or Native American thinkers that describe a love of the natural world that would help us live more responsibly on the Earth This volume retrieves the significant narratives of love of the world and the concomitant ethical ramifications of those visions and argues that our age of science and technology has destroyed the ancient living cosmos of previous visions and replaced it with a mechanical universe This shift has resulted in various forms of destruction diminishment and forgetfulness Overcoming modern world alienation requires recovering a sense of what it means to love the world and changing our practices to reflect our interconnection with it and our interdependency on it

Surroundings Etienne S. Benson, 2020-04-17 Given the ubiquity of environmental rhetoric in the modern world it is easy to think that the meaning of the terms environment and environmentalism are and always have been self evident But in Surroundings we learn that the environmental past is much more complex than it seems at first glance In this wide ranging history of the concept Etienne S Benson uncovers the diversity of forms that environmentalism has taken over the last two centuries and opens our eyes to the promising new varieties of environmentalism that are emerging today Through a series of richly contextualized case studies Benson shows us how and why particular groups of people from naturalists in Napoleonic France in the 1790s to global climate change activists today adopted the concept of environment and adapted it to their specific needs and challenges Bold and deeply researched Surroundings challenges much of what we think we know about what an environment is why we should care about it and how we can protect it Long Island Beaches Kristen J.
