Opening Credit Justin McGowan, Duncan Sankey, 2015-04-08 As a result of prevailing monetary conditions since the global financial crisis the world has witnessed unprecedented growth in global corporate credit markets Yet despite the trillions of dollars put to work in the debt capital markets corporate credit is still an unfamiliar concept to most investors compared to other asset classes such as equities and commodities Every red top newspaper and 24 hour news service is happy to report the latest twitch in the Dow FTSE or Stoxx indices but momentous moves in the iBoxx or iTraxx go unmentioned And whereas many a talking head is happy to pose as an equity analyst few feel comfortable venturing into the arcana of credit Yet the corporate credit market as the authors of this new book show is both materially larger than its equity peer and has shown more attractive risk reward characteristics over the last 90 odd years In Opening Credit career credit professionals Justin McGowan and Duncan Sankey aim to redress this by drawing on their more than 50 years collective experience in the field to elucidate a practitioner's approach to corporate credit investment Whilst explaining the basics of traditional credit analysis and affirming its value McGowan and Sankey also caution against its shortcomings They demonstrate the need both to penetrate the veil of accounting to get to the economic reality behind the annuals and interim numbers and to analyse the individuals that drive them the key executives and board members They employ a range of cogent and easy to follow case studies to illustrate the value of their executive and governance led approach which places management front and centre in understanding corporate credit Opening Credit will appeal to all those seeking a better understanding of corporate credit including analysts looking to

develop their skills fund managers especially those with an eye to SRI bankers IFAs financial journalists academics and students of finance

If You're in a Dogfight, Become a Cat! Leonard Sherman, 2017-01-10 Businesses often find themselves trapped in a competitive dogfight scratching and clawing for market share with products consumers view as largely undifferentiated Conventional wisdom suggests that dogfights are to be expected as marketplaces mature giving rise to the notion that there are bad industries where it is unlikely that any company can succeed But there are

notable exceptions in which enlightened executives have changed the rules to grasp the holy grail of business long term profitable growth Rather than joining the dogfights raging within their industry companies such as Apple FedEx and Starbucks have chosen to become metaphorical cats continuously renewing their distinctive strategies to compete on their own terms In *If You're in a Dogfight Become a Cat* Leonard Sherman draws on four decades of experience in management consulting venture capital and teaching business strategy at Columbia Business School to share practical advice on two of the most vexing issues facing business executives why is it so hard to achieve long term profitable growth and what can companies do to break away from the pack Sherman takes the reader on a provocative journey through the building blocks of business strategy by challenging conventional wisdom on a number of questions that will redefine management best practices What should be the overarching purpose of your business Do you really know what your strategy is Is there such a thing as a bad industry Where do great ideas come from and how do I find them What makes products meaningfully different What makes and breaks great brands How and when should I disrupt my own company What are the imperatives to achieving long term profitable growth Filled with dozens of illustrative examples of inspiring successes and dispiriting falls from grace this book provides deep insights on how to become the cat in a dogfight whether you are a CEO mid level manager aspiring business school student or curious observer interested in achieving sustained profitable growth **OHS Canada** ,2001
