 event or challenge is not new but it is accelerating More importantly globalization is largely irresistible Thus globalization is  
 not a policy option but a fact to which policymakers must adapt Globalization has accelerated as a result of many positive

factors the most notable of which include the collapse of communism and the end of the Cold War the spread of capitalism and free trade more rapid and global capital flows and more liberal financial markets the liberalization of communications international academic and scientific collaboration and faster and more efficient forms of transportation At the core of accelerated global integration at once its principal cause and consequence is the information revolution which is knocking down once formidable barriers of physical distance blurring national boundaries and creating cross border communities of all types
