

Dear Parents,

Welcome back!!! My name is _____ and I will be your child's Physical Education Teacher this year. I am very excited about providing enjoyable opportunities to be active in P.E. class.

Your child will have physical education once a week. Students must wear sneakers to P.E. This is for safety, comfort and full participation in class.

In physical education the expectations are: we come to learn, to try our best and be a great friend. By following these guidelines we will have positive, successful and productive physical education experiences.

Please feel free to contact me any time with questions or concerns at _____.

I look forward to a fun, safe and fit school year.

Sincerely,

Physical Education Teacher

Teacher Under a Microscope Robert Rose, 2001-09-20 Even though the incidents occurred in 1978 **TEACHER UNDER A MICROSCOPE** examines ongoing issues in education through the eyes and ears of trained observers and evaluators They observe comment and critique everything I say and do The intake and exit interviews explore my philosophy of education as well as my comments and responses to their questions about what I actually did and why I did it The conflicts between a disturbed principal who was backed by the District and me demonstrate the lack of balance of power in the schools One of my main contentions is about the necessity of teacher autonomy You see how I fight for it not for me but to better serve and teach my students There are some basic questions asked and answered through the Observers interviews and protocol and the daily and weekly journals or commentaries I was asked to make A few times I give you some overlapping of the same incidents as seen by the Observer and then in my journal so you can see them in greater depth First What should life in the schools be like for the children and their caretakers teachers and support personnel Second What are the basic goals of public education and how should they be accomplished Third How much freedom or autonomy should a teacher have or needs to properly achieve these goals With the accountability movement gaining strength coupled with powerful back to basics and safe schools components it appears the public believes schools should emphasize basic skills To assure this happening testing is the rage to demonstrate that the students are achieving higher standards of skills and as a way to evaluate the effectiveness of each teacher Testing is reasonable and necessary as one way to determine what a student has learned and a teacher has taught It is one way It does not take the place of all the complex and useful things a teacher has learned about a student during the year Often because a student is learning English or is enduring serious emotional distress or has some type of learning handicap the teacher is in the best position to know whether a test assesses accurately his skill levels knowledge or progress When a single test is the only determiner of whether a child passes or fails injustices occur The same is true when the test results of the class are the only determiners of the teachers ability or success The threat of being fired for the poor performance of a class will discourage even good teachers from taking classes or individual children who have academic or behavior problems I have already read about and seen instances of teachers trying

to insure they have more than their share of good and capable students This stacking of a class will most affect new teachers and their students who have always suffered trial by fire It makes good sense for the experienced teachers not to jeopardize their career but is it ethical or good educational practice The positive aspect of mass testing and accountability is that more students are being exposed to a much wider variety of useful academic skills In many poverty areas the students because of alleged or believed weak academic abilities were limited in what was taught to them Asking teachers to carefully examine what they teach and expecting them to know why as well as what they are teaching is a positive step for the profession It didnt just happen Through years of trial and plenty of errors I gradually found my teaching style Through eclectic reading I brought into my classroom ideas and concepts from many disciplines I found I was not an original thinker but I was very good at taking the ideas of more gifted people and applying them in classroom situations I took many concepts and techniques used for adults in the Human Potential Movement

Schoolwide Physical Activity Judith Rink, 2010 Audience Reference for K 12 PE and classroom teachers directors principals and administrators overseeing physical activity programs and wellness policy compliance Text for college PE majors and elementary classroom education majors Also a reference for community youth program leaders Physical activity doesn't have to be confined to physical education class Many schools are discovering the benefits of incorporating physical activity throughout the day In fact schools increasingly need to do so as requirements for weekly minutes of physical activity expand beyond the time available for physical education class With *Schoolwide Physical Activity A Comprehensive Guide to Designing and Conducting Programs* K 12 classroom teachers and administrators will learn how to design and conduct activity programs that not only meet wellness policy requirements and goals but also motivate and encourage all students to be physically active The premise of this innovative guide is that physical activity in schools is not the sole responsibility of the PE teacher It is the responsibility of all administrators and teachers and is most successful when it is integrated throughout the curriculum To that end *Schoolwide Physical Activity* highlights the role of elementary classroom teachers in providing opportunities for physical activity and it offers an array of tools and programs for teachers to incorporate in their classrooms At the secondary level the book creates a vision of a good physical activity program and then shows secondary teachers and administrators how to achieve that vision Through this text teachers and administrators receive a blueprint for building a comprehensive and coordinated K 12 physical activity program ready to use activities and forms and program ideas that address both the needs and desires of all children not just the small percentage who gravitate toward physical activity *Schoolwide Physical Activity* comes with a CD ROM that contains all the printable activities forms and tools from the book and over 200 activities for classroom teachers inclusive transitional activities integrated lessons and simple games and dances The comprehensive guide includes a Web site with an instructor guide presentation package and test package This resource will help teachers and administrators see their roles and responsibilities in a new light and gain stakeholder support for wellness and activity programs and it will assist in coordinating efforts among all involved in providing students with safe and appropriate programs that will transform their schools into more active places for learning

Safety and Disaster Management in Schools and Colleges David G Kibble, 2013-10-23 First Published in 1998 The development of disaster planning in schools and colleges usually goes hand in hand with an element of safety planning the actual process of planning for disaster itself

suggests improvements in procedures which ensure a greater level of safety Preventive measures are devised which make the likelihood of tragedies and accidents befalling an institution a little less likely This training manual aims to help schools and colleges examine and enhance their own procedures for keeping pupils students and staff safe and to assist in the development of disaster plans to help them to cope better in times of crisis Until fairly recently no school had such a thing as a disaster plan or a safety and disaster plan With increased awareness of tragedies and accidents that can occur more focused health and safety legislation and one has to say the greater likelihood of litigation schools are urgently turning their attention to such matters
