Physical Science Grade 12 Practical 2014:

School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry based learning which signals a definite paradigm shift from the traditional teacher dominated to a learner centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work and professional development in teaching practical work. This book will be of great interest to academics, researchers and post graduate students in the fields of science education and educational policy.

Inquiry-Based Science in the Primary Classroom Garima Bansal, Umesh Ramnarain, 2023-06-20 The chapters in this book represent a cross section of research conducted in inquiry based science education at primary levels of schooling in international contexts that include school settings in Australia, India, Singapore, South Africa, Turkey, Northern Ireland and the United States. The book includes empirical studies on the role of inquiry based learning in advancing students' conceptual understanding and modelling proficiency, students' understandings about the nature of scientific inquiry, classroom studies on teachers' enactment of inquiry based learning, teachers' facilitation of classroom discourse for inquiry based learning and co-teaching in developing teachers in adopting an inquiry based pedagogy. It was originally published as a special issue of the journal *Education* 3:13.

Practical Theorising in Teacher Education Katharine Burn, Trevor Mutton, Ian Thompson, 2022-07-28 This insightful collection offers a timely contribution to the body of research on practical theorising in teacher education. Acknowledging the importance of experience and reflective practice in teaching, this book simultaneously embraces the essential need for teachers at all career stages to engage effectively and critically with evidence from research. Drawing together a range of perspectives from university based and school based teacher educators, this book examines the challenges and critiques advanced when practical theorising was first proposed as well as recent tensions created by the performative culture that now pervades education. It illustrates the constant renegotiation and renewal necessary to sustain such an approach to beginners learning, investigating a range of tools developed by teacher educators to help beginning teachers navigate these demands. Demonstrating the value of practical theorising and therefore promoting powerful professional learning for practitioners, this book is essential for teachers at all career stages including trainee teachers and student teachers.
