Children's Reading Comprehension and Assessment Scott G. Paris, Steven A. Stahl, 2005-03-23 The volume identifies critical issues and cutting edge research in assessing children's reading comprehension **Resources in Education**, 1999-10 **Policy and Practice** Thomas E. Scruggs, Margo A. Mastropieri, 2009-03-11 In the study of learning and behavioral disabilities effective practice and public policy enacted to implement this practice are closely intertwined This book contains topics that include educational equity imputations of malice in social policy and analytical discussions of Response to Intervention and No Child Left Behind legislation *21st Century Literacy* Renita Schmidt, Paul Lee Thomas, 2008-11-09 Renita Schmidt and P L Thomas The guiding mission of the teacher education program in the university where we teach is to create teachers who are scholars and leaders While the intent of that mission is basically sound in theory we instill the idea that teachers at all levels are professionals always learning and growing in knowledge that theory that philosophical underpinning does not insure that the students who complete our program are confident about the act or performance of teaching In our unique program students work closely with one teacher and classroom for the entire senior year and then are supervised and mentored during their first semester of teaching the program is heavily field based and it depends on the effectiveness of mentoring throughout the methods coursework and the first semester of full time teaching Students tell us this guidance and support is invaluable and yet we feel the disjuncture between university and school just as many of you in more traditional student teaching settings Students hear best practice information from us in methods classes and they receive ample exposure to the research supporting our field but have a hard time implementing research based practices in their classroom settings and an even harder time finding it in the classrooms around them Help Your Kids Learn and Love the Bible Danika Cooley, 2021-06-08 As parents we deeply desire the best for our kids We look for the right preschool teach them to read and get them involved in extracurriculars We take our job as parents seriously But are we also putting our time and energy into teaching them the Bible Leading our kids to life through Scripture is not only doable it's an essential part of parenting kids for Jesus And the good news is studying God's Word as a family doesn't have to be hard or overly time consuming This book will give you the tools and confidence to study the Bible as a family It will help you identify and overcome your objections and fears give you a crash course in what the Bible is all about and how to teach it and provide the tools and techniques to set up a family Bible study habit You will finish this book feeling encouraged and empowered to initiate and strengthen your child's relationship with the Lord through his Word **Research in Education**, 1974

Challenging Stories Anne Burke, Ingrid Johnston, Angela Ward, 2017-07-31 How can Canadian educators begin to instill cultural sensitivity and social awareness in elementary and secondary school students? This vital text attempts to answer that question by bringing together literacy scholars and practicing teachers in a unique cross-Canadian exploration of children's literature and social justice. Through reflection on the experience of teaching with various Canadian texts including picture books, novels, and graphic novels the contributors behind *Challenging Stories* create a pedagogy of discomfort that will encourage both educators and their students to develop critical literacy skills. The compelling contributions to this collection highlight the complexities of teaching with texts that address issues of discrimination, historical marginalization, colonialism, racial and gender intolerance, sexual orientation, language and cultural diversity. The authors offer first-hand insight into the possibilities and challenges of implementing curricular and pedagogical changes to promote equity and social justice in the classroom. Featuring the stories of participating teachers and an annotated bibliography of children's literature this invaluable resource will prove to be essential reading for current and future educators.
