Short Stay Schengen Visa:

Schengen Visa Implementation and Transnational Policymaking Federica Infantino, 2019-02-06 This book examines the timely topic of controlling the borders of the European Schengen Area. It considers the state perspective on border regulation subjecting day to day practices of EU visa policy implementation to close analytical scrutiny. The objects of the analysis are three European Member States: France, Belgium, and Italy, that implement EU visa policy in Morocco, a country whose nationals are considered to be a migratory risk for the EU. The book focuses on the implementation of EU visa policy in the consulates of Belgium, France, and Italy in Casablanca. The empirical research and the comparative perspective make this book distinct. The book uses a comprehensive implementation approach by taking account of the local, national, and supranational locations of policy making. It builds on in-depth pioneering fieldwork and a comparative research design that includes those three locations. The research design has determined the evolving of the puzzle and the realizing of the unanticipated cross-national differences diminish when policy is put into practice. Extensive research into the visa sections of those EU Member States provides highly original material that sheds light on the obscure black box of EU visa policy implementation, therefore contributing to policy studies, migration studies, and studies on the European Union. In Search of Europe's Borders Kees Groenendijk,Elspeth Guild,Paul Minderhoud,2021-12-28 Borders define territories within which identities and order are described and delineated The triptych of indentities borders and orders is central to understanding the nature of sovereignty and the relations between countries Nowhere is this more apparent than in the European Union The changing definition and placement of the border is one of the most striking features of the recent transformations of the Union The definition of what a border is and where it is for persons has moved out of the territory of national sovereignty and has become the preserve in law of the European Community The enlargement of the European Union towards the countries of Central and Eastern Europe has created new challenges for the concept of borders in the EU This volume examines the extent of the Community power and the legal meaning of the EU s borders as well as the ways to control or not the movement of persons across borders It considers the legal texts EC law on visas the Regulations on visas the meaning of borders for persons in Community Law the Schengen acquis and its incorporation into the EC Treaty and where appropriate the TEU national practice and its transformation with the insertion of the private sector s responsibility for the control of borders and judicial control The point of departure is the perspective of the individual who is seeking to cross these borders
