

Sample Scholarship Essay: Field of Study

For more people, the future is uncertain; the direction their life will take is not spelled out for them. Each person is responsible for the choices she will make that will determine the course of her life. One of the choices that has an incredible impact on her life is what she will choose for her career.

This can be a difficult decision to make, as it will affect almost every aspect of a person's life to some degree. Most people are also not fortunate enough to receive a startling revelation directing them on the right course for their lives. Instead, the most powerful way that a person is able to determine her direction is not through an earthshaking revelation but through the quiet confidence that this is what she is called to do and to be.

In the same way, I have never received any startling revelations that I should pursue a career in journalism, but as I look back on my life, I am able to see that there were many little steps along the way that have led me to this choice. I have often heard my parents tell the story of how, on my first day of kindergarten, I came home crying because I had not been taught how to read. I have always loved to read and from that has developed a great respect and fascination for the written word.

Joseph Pulitzer stated the purpose of a journalist should be to "Put it before them briefly so they will read it, clearly so they will appreciate it, picturesquely so they will remember it, and above all, accurately so they will be guided by its light." His words serve as a reminder for me of the many different dimensions of writing. Journalism encompasses both creativity and technicality. It is a way of expressing individuality and of communicating with others.

MRCOG II Short Essay Questions Parveen Abedin, Khaldoun W. Sharif, 2008-04-15 MRCOG Short Essay Questions is the essential aid for all trainees studying for the membership examination of the Royal College of Obstetricians and Gynaecologists. This book contains 150 short essay questions clearly structured to facilitate both learning and practice. Questions are divided primarily into obstetrics and gynaecology and secondly by main topics such as infertility, operative gynaecology, and antenatal care. The answers are written in the form of bullet points, a format that not only clearly identifies the key points but also emulates the structure of the model answers given to the examiners by the RCOG. Khaldoun Sharif is a consultant in obstetrics and gynaecology at the Birmingham Women's Hospital and has a proven track record as an author of MRCOG revision books. His co-author Parveen Abedin recently passed the examination and has therefore provided invaluable insights that have ensured the content is both appropriate and up to date. [Help! I'm Teaching Middle School Science](#) C. Jill Swango, Sally Boles Steward, 2003 Like your own personal survival guide, *Help! I'm Teaching Middle School Science* is a nontechnical how-to manual, especially for first-year teachers. But even veteran teachers can benefit from the plentiful ideas, examples, and tips on teaching science the way middle schoolers learn best. The book covers all the basics: what to do on the first day of school, including icebreaker activities; preparing safe and effective lab lessons; managing the classroom; working with in-school teams as well as parents. But its practical and encouraging approach doesn't mean it shortchanges the basics of effective pedagogy. You'll learn how to handle cooperative learning and assessment; how to help students write effectively; and the importance of modeling for early adolescents. **Evaluation and Measurement in Health Promotion** Manoj Sharma, R.
