

Should Animals Be Kept In Zoos?

Would you like it if you were locked up in a cage and be laughed at by humans? Well, this exactly what zoo animals suffer from every day! About 2100 get tranquilized and separated from their natural habitat and from their own families, just so we humans can have a fun day at the zoo. According to CAPS (Captive Animals Protection Society), in 2010, a CAPS undercover investigator filmed sick animals left untreated and dead animals to rot on floors. CAPS had to take rabbits to a vet to have infections treated. Local police confiscated a monkey who had been kept alone and given cake and other junk food to eat.

Can you imagine the life of an innocent and miserable animal? The mental physical pain from not getting nourished, treated badly and being in a cramped habitat. The federal Animal Welfare Act establishes only the most minimal standards for cage size, shelter, health care, ventilation, fencing, food, and water. For example, enclosures must provide "sufficient space to allow each animal to make normal postural and social adjustments with adequate freedom of movement. Can you imagine the mental state of a sad, depressed and innocent animal that is locked up in a cage? For example, Orcas in the wild can live up to 60-90 years, the median age of orcas in captivity is only 9 years because they are cramped in a small tank.

Globally, 2100 animals get tranquilized and separated from their own families and environment every day, just so we humans can get some entertainment. If humans can have rights and voices to speak aloud, then why can't animals? Animals have roamed this

In Defense of Animals Peter Singer, 2013-05-20 Bringing together new essays by philosophers and activists In Defense of Animals The Second Wave highlights the new challenges facing the animal rights movement Exciting new collection edited by controversial philosopher Peter Singer who made animal rights into an international concern when he first published In Defence of Animals and Animal Liberation over thirty years ago Essays explore new ways of measuring animal suffering reassess the question of personhood and draw highlight tales of effective advocacy Lays out Ten Tips for Activists taking the reader beyond ethical theory and into the day to day campaigns for animal rights *Morality's Progress* Dale

Jamieson, 2002 *Morality's Progress* is the summation of nearly three decades of work by Dale Jamieson a leading figure in environmental ethics and bioethics The twenty two papers here are invigoratingly diverse but together tell a unified story about various aspects of the morality of our relationships to animals and to nature The volume begins by addressing the possibility of moral progress and the value of practical ethics It then moves on to discuss the nature of animal minds and our moral duties with respect to animals it concludes with essays that address larger environmental questions Considered as a whole *Morality's Progress* is an attempt to draw out the moral consequences of a thoroughgoing Darwinian Naturalism The perspective that informs this work is philosophically naturalist morally consequentialist and metaethically constructivist Jamieson's essays will convince sceptics that thinking about our moral relations to animals and nature can offer great intellectual reward and his work here sets a challenging controversial agenda for the future Critical Approaches to

Animals and the Environment Lisa Kemmerer, 2015-05-01 Contemporary Earth and animal activists rarely collaborate perhaps because environmentalists focus on species and ecosystems while animal advocates look to the individual and neither seems to have much respect for the other This diverse collection of essays highlights common ground between earth and animal advocates most notably the protection of wildlife and personal dietary choice If earth and animal advocates move beyond philosophical differences and resultant divergent priorities turning attention to shared goals both will be more effective and both animals and the environment will benefit Given the undeniable seriousness of the environmental problems that we face including climate change and species extinction it is essential that activists join forces Drawing on a wide range of issues and disciplines ranging from wildlife management hunting and the work of NGOs to ethics ecofeminism religion and animal welfare this volume provides a stimulating collection of ideas and challenges for anyone else who cares about the

environment or animals **Why Do We Go to the Zoo?** Erik A. Garrett, 2013-12-05 Despite hundreds of millions of visitors each year zoos have remained outside of the realm of philosophical analysis This lack of theoretical examination is interesting considering the paradoxical position within which a zoo is situated being a space of animal confinement as well as a site that provides valuable tools for species conservation public education and entertainment Why Do We Go to the Zoo argues that the zoo is a legitimate space of academic inquiry The modes of communication taking place at the zoo that keep drawing us back time and time again beg for a careful investigation In this book the meaning of the zoo as communicative space is explored This book relies on the phenomenological method from Edmund Husserl and a rhetorical approach to examine the interaction between people and animals in the zoo space Phenomenology the philosophy of examining the engaged everyday lived experience is a natural method to use in the project Despite its rich history and tradition it is interesting that there are very few books explaining how to do phenomenology Why Do We Go to the Zoo provides a detailed account of how to actually conduct a phenomenological analysis The author spent thousands of hours in zoos watching people and animals interact as well as talking with people both formally and informally This book asks readers to bracket their preconceptions of what goes on in the zoo and instead to explore the meaning of powerful zoo experiences while reminding us of the troubled history of zoos *Study Tasks in English Student's Book* Mary Waters, Alan Waters, 1995 BARCODES 448887 and 448888 are in language packs
