### Product Overview

Marine Fire and Detection Control is an advanced Siemens fire-safety system designed for use with Cerberus PRO 252-point (Model FC922) or 504-point (Model FC924) addressable FACPs for Marine-specific installs and other harsh-environment applications.

The enclosure used in Marine applications is robust and weather-resistant. Its durable design is customized for Marine installs, due to the conditions at-sea the equipment will regularly encounter. In order to provide secure fastening, each Model FH-2071-UM shipment includes a fully gasket-sealed outer door, draw latches, as well as wire-braided, corrosion-resistant vibration isolators.

For all Marine installations that use Siemens XTRI-series devices, a specific faceplate (Model USCG-XPLATE) is required, and must be ordered separately. The faceplate helps diminish RFI exposure, and fits on the front of each XTRI interface module.

Additionally, the system batteries (Model BP-62) are used to provide back-up system power. Each battery, which is rated at 16AH, can withstand temperatures as low as -40°F/°C and as high as +176°F (+80°C).

### Application Data

The equipment used in Marine applications generates and radiates radio-frequency energy. If the equipment is not installed properly, and is attempted to be used in ways that are different from the instructions found in the manual (POM: A6V10519176), this could subsequently result in interference with radio communications.

With the exception of the inner door, the Marine enclosure (Model FH-2071-UM) is shipped complete. A trained Siemens representative is required to wire and assemble the Marine equipment at the site. Actual FACPs are delivered in individual parts. Pre-installed components include one (1) EMI filter, as well as one (1) system battery bracket.

The following components must be ordered separately:

- one (1) system operating unit
- one (1) 170W power supply; electronic components (according to specified order)
- two (2) 16AH batteries; installation material, instructions, and option modules (as required).

See: Pages 4-6 for the complete list of individual, orderable parts.
