**China Economic Review's China Business Guide 2005** Graham Earnshaw, 2004 *Everyday Innovators* Leslie Haddon, Enid Mante, Bartolomeo Sapio, Kari-Hans Kommonen, Leopoldina Fortunati, Annevi Kant, 2006-01-12 *Everyday Innovators* explores the active role of people collectively and individually in shaping the use of information and communication technologies. It examines issues around acquiring and using that knowledge of users how we should conceptualise the role of users and understand the forms and limitations of their participation. To what extent should we think of users as being innovative and creative? To what extent is this routine or exceptional confined to particular group of users or part of many people's experience of technologies? Where does the nature of the ICT or the particularities of its design impose constraints on the active role that users can play in their interaction with devices and services? Where do the horizons and orientations of the users influence or limit what they want and expect of their ICTs and how they use them? This book enables a cross fertilisation of perspectives from different disciplines and aims to provide new insights into the role of users drawing out both applied and theoretical implications.
