Weber, Itzhak Yanovitzky, 2021-11-03 Social network analysis provides a meaningful lens for advancing a more nuanced understanding of the communication networks and practices that bring together policy advocates and practitioners in their day to day efforts to broker evidence into policymaking processes This book advances knowledge brokerage scholarship and methodology as applied to policymaking contexts focusing on the ways in which knowledge and research are utilized and go on to influence policy and practice decisions across domains including communication health and education There is a growing recognition that knowledge brokers key intermediaries have an important role in calling attention to research evidence that can facilitate the successful implementation of evidence informed policies and practices The chapters in this volume focus explicitly on the history of knowledge brokerage research in these contexts and the frameworks and methodologies that bridge these disparate domains The contributors to this volume offer useful typologies of knowledge brokerage and explicate the range of causal mechanisms that enable knowledge brokers influence on policymaking The work included in this volume responds to this emerging interest by comparing assessing and delineating social network approaches to knowledge brokerage across domains The book is a useful resource for students and scholars of social network

analysis and policymaking including in health communication public policy and education policy *The Doctor's Handbook* Tony White, 2010 Many doctors do not receive training early in their careers on the broad range of non clinical aspects of their work and confront day to day issues for which initial medical education has failed to prepare them Experienced doctors and consultants can also experience a similar lack of accessible reference material on these aspects of their role and for the non clinical training of their juniors This book and its companion volume *The Doctor's Handbook Part 1 managing your role beyond clinical medicine* have been written to address these and other needs Previously published as *The Specialist Registrar and New Consultant Handbook* these completely revised and reconfigured volumes reflect the changing everyday work of specialist trainees registrars and consultants Topics covered in Volume 2 include **Public health** Great Britain: Parliament: House of Commons: Health Committee, 2011-11-02 Additional written evidence is contained in Volume 3 available on the Committee website at [www.parliament.uk/healthcom](http://www.parliament.uk/healthcom) *House of Commons - Committee of Public Accounts: Emergency Admissions to Hospital - HC 885* Great Britain: Parliament: House of Commons: Committee of Public Accounts, Margaret Hodge, 2014-03-04 Nearly one fifth of consultant posts in emergency departments were either vacant or filled by locums in 2012 Neither the Department nor NHS England have a clear strategy to tackle the shortage of A E consultants and there is too much reliance on temporary staff to fill gaps The Committee raised the possibility of paying consultants more to work at struggling hospitals Greater use in A E of consultants from other departments could also be made or mandate that all trainee consultants spend time in A E or make A E positions more attractive through improved terms and conditions The slow introduction of round the clock consultant cover in hospitals which will not be in place before the end of 2016/17 is also having a negative impact More people die as a result of being admitted at the weekend when fewer consultants are in A E Changing this relies on the British Medical Association and NHS Employers negotiating a more flexible consultants contract and neither the Department nor NHS England has direct control over the timescale or details of these negotiations Hospitals GPs and community health services all have a role to play in reducing emergency admissions but financial incentives to make this happen are not in place While hospitals get no money if patients are readmitted within 30 days there are no financial incentives for community and social care services to reduce emergency admissions Both the Department of Health and NHS England struggled to explain to us who is ultimately accountable for the efficient delivery of local A E services **A Guide to the NHS** Tony White, 2018-05-08 To maximise the effectiveness of their work NHS employees need a clear understanding of the structures and systems of the organisation in which they work However this information can be widely spread hard to access and difficult to gain a working overview of and the pace of changes and initiatives can seem almost dizzying This book draws together a clear picture of the modern NHS from funding and governance to reports inquiries and overarching legislation The book is clear and easy to understand and crucially includes full references to provide a one stop point of access to the most detailed and up to date information available This book is

essential reading for workers in the NHS at all levels including managers administrators and clinical professionals It is vital reading for managers and staff at commercial companies working with the NHS It will also be of interest to campaigners patient interest groups researchers and journalists with an interest in the NHS Specialty registrars and consultants can also find the information from the book and much more in *The Doctor's Handbook Parts 1 2* by the same author Rather than long narrative histories or complex explanations the author signposts readers to sources of further information making this book the quick guide so many of us need from the Foreword by Sir Ian Carruthers

*The impact of devolution on social policy*  
Birrell, Derek, 2009-09-09 With new devolved administrations in Scotland Wales and Northern Ireland this book makes a comprehensive assessment of the impact of devolution on social policy It provides a study of developments in the major areas of social policy and a full comparison between Scotland Wales and Northern Ireland To what extent is it valid to speak of agendas for government driven by social policy With new governments in each country has

a fresh dynamic been given to the emergence of distinct social policies The impact of devolution on social policy uses a framework of analysis based on the nature and scope of social policies ranging from major innovations and policy distinctiveness to differences in implementation policy convergence and areas of overlap with UK policies This framework facilitates an integrated analysis and comparison of social policy developments and outcomes between the four UK nations An assessment is also made of the ideas and values which have driven the direction of social policy under devolution With devolution becoming increasingly important in the study of social policy the book will be of key interest to academics and students in social policy public policy and politics and will also be a valuable resource for practitioners involved in policy making

*Parliamentary Debates (Hansard)*. Great Britain. Parliament. House of Commons,2013 *The Digitalization of Healthcare* Ian P. McLoughlin,Karin Garrety,Rob Wilson,2017-01-19 Electronic health records are widely regarded as the

connective tissue of any modern healthcare system For some they represent a dangerous enthusiasm and for others a key enabler of disruptive innovation Many governments have made major policy and financial investments in digitalizing health records but their implementation has frequently run into opposition from doctors had lukewarm responses from patients and raised considerable concerns for privacy advocates and others worried by the security of sensitive health data and the risks of national data bases This book draws upon the concept of orders of worth to reveal the moral dimensions of the medical division of labour and to delve deeper into understanding why electronic records have been so difficult to implement and the sources of opposition to them The authors argue that digitalization disrupts the moral orders which define rights and responsibilities for the sharing and exchanging of patient medical data This is illustrated through longitudinal studies of two of the most controversial attempts to introduce national systems a patient controlled electronic record in Australia and a national summary care record that was part of the ill fated NHS national program for IT in England The authors conclude by using the lessons from these national experiences and insights from two regional projects in each country to suggest how the idea of electronic records might be re thought It is a must read for anyone concerned about health information and the implications of how it is shared and exchanged in a digital world      **International Online Information Meeting** ,2005

Patients, the Public and Priorities in Healthcare Peter Littlejohns,Michael Rawlins,2018-04-19 Sharing the costs of ill health is the mark of a civilised society However every society has limited healthcare resources and must therefore make finely balanced decisions on how best to allocate them The National Institute for Health and Clinical Excellence NICE has been responsible for the UK s health resource allocation for a decade To inform its decisions a Citizens Council of 30 members of the general public was established by NICE to gauge the underlying values of the society it serves A number of national and international organisations and governments have asked NICE to share its experiences in establishing and running the Citizens Council and encouraging and supporting patient involvement As part of NICE s response this book provides an up to date position statement on the Citizens Council an exploration of how patients interact with NICE and how their views are taken into account and a national and international perspective on new issues facing the interaction between patients the public and healthcare provision Reading this volume will enable you the reader to assess how well NICE is acting as a means of fostering responsible public choice I hope you profit from its chapters as much as I have Albert Weale in his Foreword      **Local Strategic Partnerships** Hilary Russell,2001 This practical report draws on the experiences of New Commitment to Regeneration NCR pathfinders which have been an influential model for LSPs to identify lessons for good practice Amply illustrated by case studies the report demonstrates what works in effective strategic partnerships and highlights implications for partner organisations and the role of government It locates current developments in the context of evolving urban policy identifies critical success factors for strategic partnerships discusses the dimensions of whole systems change necessary for partnership working indicates key challenges and tasks for LSPs and their partners points to the need
