Patients in the neurointensive care unit pose many clinical challenges for the attending physician. Even experienced clinicians occasionally arrive at the point where diagnostic work up, treatment or prognostic thinking becomes stymied. In daily practice, neurocritical care pertains to managing deteriorating patients, treatment of complications, but also end of life care, assisting families with difficult decisions. Part of the What Do I Do Now series, Neurocritical Care provides insight into interventions in acute neurologic disorders. Using a case-based approach, this volume emphasizes how to handle comparatively common clinical problems emergently. New to this edition are cases on monitoring and prognostication. All cases have been carefully revised, and new information, references, and practical tables have been added. Neurocritical Care is both an engaging collection of thought-provoking cases and a self-assessment tool that tests the reader's ability to answer the question: What do I do now? **Transactions of the Section on Laryngology, Otology and Rhinology** American Medical Association.
