For adults, teenagers and children aged five and over

**Foods and drinks high in fat, sugar and salt**

**NOT every day**

**!** Most people consume snacks high in fat, sugar and salt and sugar sweetened drinks up to 4 times a day (Healthy Ireland Survey 2016). There are no recommended servings for Top Shelf foods and drinks because they are not needed for good health.

**Fats, spreads and oils**

**As very small amounts**

Use as little as possible. Choose mono or polyunsaturated reduced-fat or light spreads. Choose rapeseed, olive, canola, sunflower or corn oils. Limit mayonnaise, coleslaw and salad dressings as they also contain oil. Always cook with as little fat or oil as possible - grilling, oven-baking, steaming, boiling or air-frying.

**Meat, poultry, fish, eggs, beans and nuts**

**2 servings a day**

Choose lean meat, poultry (without skin) and fish. Eat oily fish up to twice a week. Choose eggs, beans and nuts. Limit processed salty meats such as sausages, bacon and ham.

**Milk, yogurt and cheese**

**3 servings a day**

8 for children age 6-11 and teenagers age 12-18. Choose reduced fat or low-fat varieties. Choose low-fat milk and yogurt more often than cheese. Enjoy cheese in small amounts. Women who are pregnant or breastfeeding need 3 servings a day.

**Wholemeal cereals and breads, potatoes, pasta and rice**

**3-5 servings a day**

Up to 1<sup>st</sup> for teenagers (age 12-18) and men age 19-50. Wholemeal and wholegrain cereals are best. Enjoy at each meal. The number of servings depends on age, size, if you are a man or a woman and on activity levels. Watch your serving size and use the Daily Servings Guide below.\*

**Vegetables, salad and fruit**

**5-7 servings a day**

Base your meals on these and enjoy a variety of colours. More is better. Limit fruit juice to unsweetened, once a day.

**Fostering Child and Adolescent Mental Health in the Classroom** Raymond J. Waller, 2006-03-13 *Fostering Child and Adolescent Mental Health in the Classroom* provides educators and school personnel with a thorough, readable guide to some of the most common mental health issues they are likely to confront in the classroom. Editor Raymond J. Waller offers pre-service and in-service educators strategic tools to help take the proper steps toward addressing the mental health issues of their students. **Key Features:** Encourages effective collaboration between teachers and mental health professionals. While most books related to children's mental health are written for mental health personnel, this book offers strategies that teachers can use in their classrooms to help children with mental health issues. The chapters in this book are written by experts in the field and address contemporary common mental health issues experienced by children and adolescents. Gives teachers confidence in having a positive impact. Educators are often among the most influential people in the lives of children, and this book offers helpful and practical roles for educators in promoting mental health in all children. Real-life vignettes demonstrate how various mental health problems may manifest in the classroom and how these problems can be addressed effectively in the school setting. Helps identify mental health problems in the classroom. Few teachers are specifically taught to identify student behaviors that may potentially result in severely reduced functioning or risk of harm to self or others. This text will assist educators in recognizing symptoms of crisis and offer practical suggestions rather than treatment or diagnosis, which is beyond the purview of most educators. **Intended Audience:** This is an excellent supplementary textbook for advanced undergraduate and graduate courses on Classroom Management. It can also be used in a variety of courses in Education, Special Education, Educational Psychology, School Psychology, School Counseling, and School Social Work.
