Treatment of Atrial Fibrillation Hauw T. Sie, Giuseppe D'Ancona, Fabio Bartolozzi, Willem Beukema, Donald B.

Doty, 2008-04-30 In recent years a myriad of surgical protocols have been developed to manage atrial fibrillation increasing the confusion over which are the most effective approaches This timely book presents a multidisciplinary international team of authorities who have reviewed the evidence in order to establish which surgical approaches should be used under which circumstances Divided into five parts the book not only explores surgical treatment of atrial fibrillation it also offers a complete understanding of its underlying causes Anatomy Pathophysiology and Electrophysiologic Basis of Atrial Fibrillation Surgical Approach to Atrial Fibrillation The Cox Maze Procedure Modifications of the Cox Maze Use of Alternative Surgical Patterns and Energy Sources The Invasive Cardiologist Approach Perioperative Complications Reporting Results and Statistical Analysis With its clear presentation and analysis of the current findings in surgical treatment of atrial fibrillation this book points the way towards a scientific approach for the surgical cure of atrial fibrillation and is essential reading for all cardiac surgeons **A Practical Guide to Heart Failure in Older People** Chris Ward, Miles Witham, 2009-03-23 Heart

failure is effectively a disease of older people Eighty percent of patients are over 65 years old and the majority of these are over 75 This figure is likely to increase significantly in the next two decades The prognosis is worse than that of most cancers and heart failure is the commonest reason for hospital admission in the over 65s The problems associated with treating heart failure in older patients are more diverse and complex than in those who are younger The diagnosis in older patients is easily overlooked and as they were excluded from most heart failure treatment trials there has been a reluctance to treat them optimally fewer than 20% are prescribed conventional medicines They have multiple co morbidities which are poorly managed they are repeatedly hospitalised and suffer social isolation These important age related treatment and management problems have been largely ignored and this book aims to redress the balance It provides a concise comprehensive account of the epidemiology pathogenesis diagnosis treatment management and end of life care of elderly patients with heart failure based on published studies A Practical Guide to Heart Failure in Older People is essential reading for geriatricians cardiologists general hospital physicians family practitioners and specialist nurses Specifically addresses the particular needs of the elderly a largely ignored group who constitute the majority of patients with heart failure Presents a concise yet comprehensive account of the evidence relating to the diagnosis treatment and management of heart failure in this

population Improves awareness of the various roles within the management team
