Scouts Camp Alice Chester Jean Krieg in association with the Girl Scouts of Wisconsin Southeast, 2014 Girl Scouts of Wisconsin Southeast's Camp Alice Chester CAC on picturesque Booth Lake first opened its doors in 1924 after a successful fundraising effort led by Alice Chester the first president of the Milwaukee Girl Scouts. Thousands have walked its well worn trails cooked over campfires and slept in the tents and cabins. Swimming and boating activities have consistently been a major appeal for campers. The historic European style lodge has provided a gathering place for community meals, folk dancing, dramatics, arts and crafts, and ceremonies through the decades. CAC is a unique setting where skills and confidence are strengthened and lasting friendships are formed. Since the fall of 1980 CAC has also been known as Alice Chester Center ACC. The name change brought expanded year round staff led opportunities for Girl Scouts and others to utilize it during the fall, winter, and spring seasons. Today the accredited property encompasses 333 acres and features frontage on two lakes.

**A Manufactured Wilderness** Abigail Ayres Van Slyck, 2006. Since they were first established in the 1880s, children's summer camps have touched the lives of millions of people. Although the camping experience has a special place in the popular imagination, few scholars have given serious thought to this peculiarly American phenomenon. Why were summer camps created? What concerns and ideals motivated their founders? Whom did they serve? How did they change over time? What factors influenced their design? To answer these and many other questions, Abigail A. Van Slyck trains an informed eye on the most visible and evocative aspect of camp life: its landscape and architecture. She argues that summer camps delivered much more than a simple encounter with the natural world. Instead, she suggests, camps provided a man-made version of wilderness shaped by middle class anxieties about gender roles, class tensions, race relations, and modernity and its impact on the lives of children. Following a fascinating history of summer camps and a wide ranging overview of the factors that led to their creation, Van Slyck examines the intersections of the natural landscape with human built forms and social activities. In particular, she addresses changing attitudes toward such subjects as children's health, sanitation, play, relationships between the sexes, Native American culture, and evolving ideas about childhood. Generously illustrated with period photographs, maps, plans, and promotional images of camps throughout North America, *A Manufactured Wilderness* is the first book to offer a thorough consideration of the summer camp environment.
