FURTHER ADVENTURES OF CYCLOPS PHOENIX 1 4 X MEN APOCALYPSE DRACULA 1 4 BLACK KNIGHT EXODUS FANTASTIC FOUR 1961 19 Relics from the Future Keegan Hennis,2014-10-31 After but a short time but many intervening events the momentary infatuation between the Captain and his only friend has dwindled His rational mind stepped in and took over forcing him to act like the kiss had never happened With a prisoner in a jail cell and a new purpose for their existence Ryune and his First Mate begin to explore the dauntingly uncharted galaxy in which they find themselves But signs point to an impossibly large object on the edge of their detection and what it tells them brings up more questions than answers It carries the signs that it too has been built by the gate builders And it seems to be over a trillion years old if it s a day Will this new feature in their universe help them Or will it cause more harm than good Has Ryune finally answered the only unanswered question in all of space Is this where humanity originally came from *The Invention of Race in the European Middle Ages* Geraldine Heng,2018-03-08 In *The Invention of Race in the European Middle Ages* Geraldine Heng questions the common assumption that the concepts of race and racisms only began in the modern era Examining Europe s encounters with Jews Muslims Africans Native Americans Mongols and the Romani Gypsies from the 12th through 15th centuries she shows how racial thinking racial law racial practices and racial phenomena existed in medieval Europe before a recognizable vocabulary of race emerged in the West Analysing sources in a variety of media including stories maps statuary illustrations architectural features history saints lives religious commentary laws political and social institutions and literature she argues that religion so much in play again today enabled the positing of fundamental differences among humans that created strategic essentialisms to mark off human groups and populations for racialized treatment Her ground breaking study also shows how race figured in the emergence of homo europaeus and the identity of Western Europe in this time *Robert Louis Stevenson and the Great Affair* Richard J. Hill,2017-02-03 In his travel narrative *Travels with a Donkey in the Cevennes* 1879 Robert Louis Stevenson declares I travel not to go anywhere but to go I travel for travel s sake The great affair is to move Taking up the concepts of time place and memory the contributors to this collection explore in what ways the dynamic view of life suggested by this quotation permeates Stevenson s work The essays adopt a wide variety of critical approaches including post colonial theory post structuralism new historicism art history and philosophy making use of the vast array of literary materials that Stevenson left across a global journey that began in Scotland in 1850 and ended in Samoa in 1894 These range from travel journals letters and classic literary staples such as *Treasure Island* and *The Strange Case of Dr Jekyll and Mr Hyde* to rarely read masterpieces such as *The Master of Ballantrae* or *The Ebb Tide* While much recent scholarship on Stevenson foregrounds geography the present volume also examines the theme of movement across memory time and generic boundaries Taken together the essays offer a view of Stevenson that demonstrates how the protean nature of his literary output reflects the radical developments in science technology and culture that characterized the age in which he lived *Discovering Deutschland* Barrett Williams,ChatGPT,2024-12-01 Embark on an extraordinary journey
