Religious Freedom in America Michael C. LeMay, 2018-01-12

This book provides the answers to controversial questions about religious liberties in the United States and connected issues through balanced thorough and nonjudgmental coverage of the issues in a reference format. The subject of religious freedom is important to all American citizens regardless of religious affiliation or ethnicity. Are the rights of religious individuals being eroded or is religion being unfairly used to deny basic secular rights to individuals? How will religious institutions adapt to changes in legislation that have an impact on how they operate? Does the Supreme Court have the right to enforce these changes? Finally, how can the precarious separation of church and state be maintained while simultaneously respecting both institutions? This single volume work provides an introduction that addresses the historical background of religious freedom in America, accurately explains the latest legal developments in religious freedom in the United States, and presents an unbiased account of the probable impact of the new Freedom of Religion laws in the continuing culture war. Readers will gain insight into key controversies such as prayer in public schools, creationism versus evolution, abortion, religious objections to medical care, religious displays in public places, same sex marriage, and LGBT rights, and state and federal religious freedom acts. The book also includes perspective essays by outside contributors, a selection of useful primary documents, a listing of print and nonprint resources, a chronology, and a glossary of terms.

A Flash of Golden Fire Thomas Elsner, 2025-05-01

In the early twentieth century C. G. Jung survived an intense encounter with the unconscious. He did this by giving expression to his inner world in the paintings and dialogues found in the *Red Book*. Yet Jung felt alone in this work, unable to find a precedent or cultural parallel until he discovered alchemy. This ancient protoscience became the bridge Jung had been seeking between the remote past and the present. Yet between the downfall of alchemy in the eighteenth century and Jung's *Red Book* in the twentieth, it seems that there was a gap in the tradition. According to Jungian analyst and author Thomas Elsner, Samuel Taylor Coleridge's great visionary poem *The Rime of the Ancient Mariner* is another link in that golden chain. In Elsner's analysis, Coleridge's nineteenth-century night sea journey can today be understood as a symbolic self-portrait of the collective unconscious, a self-portrait that like the *Red Book* finds its historical context and continuity in the alchemical tradition. Continuing the highly esteemed works arising from the Fay Lecture Series sponsored by the Jung Center, Houston, Elsner's *A Flash of Golden Fire: The Birth, Death, and Rebirth of the Modern Soul* in Coleridge's *The Rime of the Ancient Mariner* promises to further extend the understanding and appreciation of Jungian principles for practitioners, analysts, others interested in Jungian theory and practice, the psychological dimensions of Romantic poetry, and the evolution of Western consciousness.
