## **Religion And Human Rights An International Perspective:**

Religion and Human Rights Hans-Georg Ziebertz, Gordan Črpić, 2015-01-13 This book examines the relationship between human rights and religiosity. It discusses whether the impact of religiosity on human rights is liberational or suppressive and sheds light on the direction in which the relationship between religion and human rights is expected to develop. The questions explored in this volume are: Which are the rights that are currently debated or under pressure? What is the position on human rights that churches and religious communities represent? Are there tensions between churches, religious communities and the state? Which rights are especially relevant for young people and which relate to adolescents' life world experiences? Covering 17 countries, the book describes two separate yet connected studies. The first study presents research by experts from individual countries describing the state of human rights and neuralgic points anticipated in individual societies. The other study presents specific findings on the relationship between these two social phenomena from empirical research in a population of high school students. Studying this particular population allows insights into social trends, value systems and attitudes on human rights as well as an indication of the likely directions of development and potential room for intervention.

**Religious Human Rights in Global Perspective** John Witte, Johan D. van der Vyver, 1996. The legal traditions of Christianity, Judaism and Islam have contributed much to the cultivation and violation of religious human rights around the world. In this volume, Desmond Tutu, Martin Marty and twenty leading scholars offer an authoritative assessment of these contributions and challenge people of all faiths to adopt golden rules of religious liberty. *Religious Human Rights in Global Perspective* Johan David Van der Vyver, John Witte, 1996. In this Dickensian century of human rights, the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses. In this volume, Jimmy Carter, John T. Noonan Jr. and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents. This volume and its companion *Religious Human Rights in Global Perspective: Religious Perspectives* are products of an ongoing project on religion, human rights and democracy undertaken by the Law and Religion Program at Emory University. *Religion and Human Rights* Carrie Gustafson, 1999. Countering the mainstream debate between religious freedom and the imposition of secular notions of human rights, contributors from various religious traditions explore the impact of religion itself on human rights. Among the topics they take up are environmental rights, the rights of women in India and Iran, and within Orthodox Judaism, the global imposition of criminal justice and the pressure in Latin America to democratize the Catholic Church. Six of the seven essays are followed by lengthy responses. Annotation copyrighted by Book News, Inc., Portland, OR. **Religion, Human Rights and International Law** Javaid Rehman, Susan Breau, 2007-07-30. Freedom of religion is a subject which has throughout human history been a source of profound disagreements and conflict. In the modern era, religious-based intolerance continues to provide lacerative and tormenting concern to the possibility of congenial human relationships. As the present study examines

religions have been relied upon to perpetuate discrimination and inequalities and to victimise minorities to the point of forcible assimilation and genocide The study provides an overview of the complexities inherent in the freedom of religion within international law and an analysis of the cultural religious relativist debate in contemporary human rights law As many of the chapters examine Islamic State practices have been a major source of concern In the backdrop of the events of 11 September 2001 a considerable focus of this volume is upon the Muslim world either through the emergent State practices and existing constitutional structures within Muslim majority States or through Islamic diasporic communities resident in Europe and North America

**Harmful Practices and Human Rights: An International Perspective** Ebenezer

Durojaye,Satang Nabaneh,Johanna Bond,2025-07-02 Harmful Practices and Human Rights examines different forms of harmful practices globally which constitute human rights violations as guaranteed in international and regional human rights instruments Drawing examples from Africa Asia North America Europe and Australasia it demonstrates how these practices undermine the right to health including sexual and reproductive health and also impugn the dignity and autonomy of women and girls Using diverse harmful practices as case studies the book critically examines the factors that drive harmful practices in developing and developed countries Specifically this book focuses on a selection of harmful practices including dowry payments ukuthwala intimate partner violence harmful tobacco use and its gendered implications trafficking in persons widowhood practices the chinamwari khomba practice and child marriage from both the Global South and North Its intent is to demonstrate the prevalence of these abuses and underscore the urgent need for states to take decisive steps toward eradication

*Religious Human Rights in Global Perspective* John Witte,Johan D. van der Vyver,2023-07-24 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion *Religious Human Rights in Global Perspective Religious Perspectives* are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University

*Making Religion and Human Rights at the United Nations* Helge Årsheim,2018-07-23 This volume examines the different and sometimes contradictory approaches of four UN human rights committees to the concept of religion Drawing on critical perspectives from religious studies the book combines a genealogical assessment of the role of religion in international law with a detailed textual study of the reporting practice of the committees monitoring racial discrimination civil and political rights women s rights and children s rights rsheim argues that the role of religion within the rights traditions monitored by the committees varies to the extent that their recommendations risk contradicting one another thereby undermining their credibility and potential to bring about real change on the ground Where some committees view religion singularly as a core individual right others see religion partly as an inherent threat to the realization of other rights

but also as a potent social force to be reckoned with In order to remedy this situation rsheim proposes the publication of a joint general comment by all the committees spelling out their approach to the role of religion in the implementation of human rights Religion and Human Rights John Witte Jr.,M. Christian Green,2011-11-25 The relationship between religion and human rights is both complex and inextricable While most of the world s religions have supported violence repression and prejudice each has also played a crucial role in the modern struggle for universal human rights Most importantly religions provide the essential sources and scales of dignity and responsibility shame and respect restraint and regret restitution and reconciliation that a human rights regime needs to survive and flourish in any culture With contributions by a score of leading experts Religion and Human Rights provides authoritative and accessible assessments of the contributions of Judaism Christianity Islam Hinduism Confucianism Buddhism and Indigenous religions to the development of the ideas and institutions of human rights It also probes the major human rights issues that confront religious individuals and communities around the world today and the main challenges that the world s religions will pose to the human rights regime in the future

**State-Religion Relationships and Human Rights Law** Jeroen Temperman,2010 This book presents a human rights based assessment of the various modes of state religion identification and of the various forms of state practice that characterize these different state religion models This book makes a case for the recognition of a state duty to remain impartial with respect to religion or belief in all regards so as to comply with people s fundamental right to be governed at all times in a religiously neutral manner As this book demonstrates through the various case studies there is increasing interest and concern at the manner in which questions concerning the enjoyment of the right to the freedom of religion or belief bear upon key questions concerning the governance of democratic society Issues raised involve matters concerning employment education expression association and more generally the interface between religion and political life The existing literature often traces these concerns back to the need to consider the place of religion in contemporary society but leaves matters there Another body of academic literature explores the theoretical dimensions of that relationship but fails to connect it to the practice of states in order to test out the propositions which are the product of these reflections The great virtue of this work is that it seeks to unite these various enterprises and engages head on with the challenges which this produces The aim is to demonstrate and illustrate the key contention that there is an emergent right to religiously neutral governance and that this is incompatible with the continuation of systems which offer preference to particular forms of belief system religious or otherwise A chief virtue of this book is that it works through the consequences of this claim in a fearless fashion posing challenges for those states which continue to use their legal frameworks to offer support directly or indirectly for historical dominant or favoured forms of religion or belief It challenges received assumptions and by driving the logic of contemporary human rights thinking to the foundations of state religion relationships performs a valuable service for those engaging with this most difficult and timely of questions Malcolm D Evans Professor of Public International Law University of Bristol

An-Na'im, 2011-06-06 Over the course of his distinguished career legal scholar Abdullahi Ahmed An Na'im has sought to reconcile his identity as a Muslim with his commitment to universal human rights In *Muslims and Global Justice* he advances the theme of global justice from an Islamic perspective critically examining the role that Muslims must play in the development of a pragmatic rights based framework for justice An Na'im opens this collection of essays with a chapter on Islamic ambivalence toward political violence showing how Muslims began grappling with this problem long before the 9/11 attacks Other essays highlight the need to improve the cultural legitimacy of human rights in the Muslim world As An Na'im argues in order for a commitment to human rights to become truly universal we must learn to accommodate a range of different reasons for belief in those rights In addition the author contends building an effective human rights framework for global justice requires that we move toward a people centered approach to rights Such an approach would value foremost empowering local actors as a way of negotiating the paradox of a human rights system that relies on self regulation by the state Encompassing over two decades of An Na'im's work on these critical issues *Muslims and Global Justice* provides a valuable theoretical approach to the challenge of realizing global justice in a world of profound religious and cultural difference *Christianity and International Law* Pamela Slotte, John D.
