The Pantokrator Monastery in Constantinople Sofia Kotzabassi, 2013-10-14 The Monastery of Pantokrator founded by John II Komnenos and his wife Piroska Irene is not only one of the most important and most impressive monastic complexes of the Komnenian age it is also one of the few to occupy a key position in the life of Constantinople in the Palaiologan age given that its mortuary chapel Hieron was also the last resting place of many members of the latter dynasty The first attempt to chronicle its history based on the texts known at the time was undertaken by G Moravcsik 1932 Interest was rekindled by P Gautier's critical edition of its Typikon 1971 and more recently by restoration work on its buildings This volume brings together a comprehensive selection of all the texts concerning or connected with the Monastery of Pantokrator and through them it demonstrates the Monastery's importance and its role throughout the history of the Byzantine Empire a role that has received insufficient attention given that older studies have tended to focus on the 12th century The texts cover the situation in Constantinople before the Monastery was founded the historical and cultural context within which it was established its Typikon monastic formulary the descriptions of Slav and Western travellers the Byzantine texts homiletic historical hagiographic and poetic relating to the Monastery and its history from the 12th to the 15th century the Byzantine officials associated with it and the celebration of the principal festivals in its churches It also contains critical editions of and commentaries on the two versions of the Synaxarion of Irene Komnene a speech referring to the Empress's associate in the construction of the Monastery another on the translation of the icon of St Demetrios from the Church of St Demetrios in Thessalonica to the Monastery of Pantokrator an Office of the Translation of the Holy Stone the verse Synaxarion composed for the consecration of the Monastery and the known and unpublished poems by Byzantine poets 12th-15th c relating to it as

well as an extensive bibliography **Croisades et Orient Latin** Michel Balard, 2017-02-15 partir du XIe siècle l'idée de croisade s'insère au cœur de la société chrétienne et constitue tout au long du Moyen Âge le moteur de l'expansion de l'Occident dans le monde méditerranéen. Plus que jamais, il est nécessaire de comprendre les raisons et les conséquences de part et d'autre de la Méditerranée d'un épisode historique sans précédent qui a duré quatre siècles. Cette synthèse interroge les origines et la nature de ce phénomène entre pèlerinages en armes et migrations de populations et en montre la complexité à travers les diverses grilles de lecture qui ont été appliquées au sujet : économiques, démographiques, religieuses, politiques. Elle montre comment loin d'apporter les résultats escomptés, ni permis les rencontres entre les cultures, ces campagnes ont d'abord servi la chrétienté à prendre conscience d'elle-même. Présentant le film des huit croisades, l'ouvrage met en lumière la tradition du pèlerinage vers Jérusalem et le développement de l'idée de guerre sainte dans la pensée pontificale. Il montre également que chez les hommes de la Croisade la quête de Jérusalem ne peut être séparée de la gloire et de la fortune qui se réalisent dans la création d'états latins en Orient, prémisses de la colonisation moderne. Une cinquantaine de cartes et documents iconographiques facilitent la lecture de ce volume qui propose par ailleurs un double index et une riche bibliographie. **Byzance et les reliques du Christ** Jannic Durand, Bernard Flusin, 2004. XXe Congrès international des études byzantines 19-25 août 2001. Table ronde Les reliques de la Passion. Preliminary paper. **From the Mandylion of Edessa to the Shroud of Turin** Andrea Nicolotti, 2014-09-18. According to legend the Mandylion was an image of Christ's face imprinted on a towel kept in Edessa. This acheiropoieton image, not made by human hands, disappeared in the eighteenth century. The first records of another acheiropoieton relic appeared in mid-fourteenth century France: a long linen bearing the image of Jesus' corpse, known nowadays as the Holy Shroud of Turin. Some believe the Mandylion and the Shroud to be the same object, first kept in Edessa, later translated to Constantinople, France, and Italy. Andrea Nicolotti traces back the legend of the Edessan image in history and art, focusing especially on elements that could prove its identity with the Shroud, concluding that the Mandylion and the Shroud are two distinct objects. **The Material and the Ideal** Anthony Cutler, Arietta Papaconstantinou, 2007-12-31. Reflecting the diverse interests of Jean Michel Spieser, his colleagues, students, and friends, contribute papers focused on topics ranging from the changing role of the apse and the layout of late antique basilicas to holy relics said to have been brought from Constantinople. Many of the articles address the nature and impact of specific media: goldsmiths' work, ivory, and ceramics, while a group of highly original broader studies is devoted to such larger issues as ritual display in the tenth century, the metaphorical significance of pottery, and an interrogation of the supposed influence of Byzantine icons on Western medieval art. Throughout the achievement of the authors is to move from concrete observations of particular objects to the larger meaning they held for those who commissioned and made use of them. **The Tale of the Prophet Isaiah** Ivan Biliarsky, 2013-09-15. In *The Tale of the Prophet Isaiah: The Destiny and Meanings of an Apocryphal Text*, Ivan Biliarsky proposes an edition of the original text of the medieval apocryphon together with images of the single manuscript copy. The

author also includes a large commentary on the otherwise quite unclear narrative concerning its origins its development a prosopography of the mentioned persons an interpretation of its meaning and of the stages of its continuous creation This completely new approach profoundly revises the source with a strong focus on its biblical roots Ivan Biliarsky abandons the national understanding of the apocryphon and introduces evidence about its significance for the enforcement of the Byzantine Slavic Bulgarian Commonwealth and solidarity La Passion de la Pologne. Discours, etc Étienne ANSAULT, 1863

Byzantinum in the Year 1000 Paul Magdalino, 2003 One thousand years ago the Byzantine Empire was reaching the height of its revival as a medieval state The ten contributions to this volume by scholars from six European countries reassess key aspects of the empire's politics and culture in the long reign of the emperor Basil II whose name has come to symbolise the greatness of Byzantium in the age before the crusades The first five chapters deal with international diplomacy the emperor's power and government in Asia Minor and the frontier provinces of the Balkans and southern Italy The second half of the volume covers aspects of law history writing poetry and hagiography and concludes with a discussion of Byzantine attitudes to the Millennium
