Remember Everything 40 Years Galerie Max Hetzler:

Remember Everything Jean-Marie Gallais, 2014-01 **The Routledge Companion to Global Photographies** Lucy Soutter, Duncan Wooldridge, 2024-08-30 In response to widespread demand for more knowledge and insight about contemporary photographies beyond Western centers of production and dissemination this volume provides a transnational discussion grounded in dialogue between authors and editors from diverse locations and contexts Ecological and decolonial discourses around photography reveal the medium's global entanglements images produced on one side of the globe are the result of labors which span its full surface At the same time the multiplicity of approaches and understandings of the photograph reveal that even though it might seem like a universal language we utilize its tools to radically different ends The volume explores issues surrounding cultural translation photography's response to climate change decolonial practices network formation new materialities identities and the role of photobooks It also provides in depth surveys and case studies of global practices and theories alongside interviews and roundtable discussions with key figures whose perspectives illuminate the contemporary field This groundbreaking collection is an essential resource for academics and students working in or with photography contextual studies history and theory but also media and cultural studies more broadly The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Jeff Koons** Scott Rothkopf, 2014-07-08 With over 200 illustrations of iconic works as well as preparatory studies and historic photographs this book offers fresh insight into Koons's polarizing and influential career **Bridget Riley: Works from 1981-2015** Bridget Riley, 2016-07-26 Bridget Riley's explorations of perception through form and color have made her into one of the most significant painters working today Since the early 1960s she has used elementary shapes lines circles curves and squares to create visual experiences that immediately draw the viewer in often triggering optical vibrations and illusions More recently Riley has shifted back to black and white in her large scale paintings marking a departure from her recent colored stripe paintings and a return to the palette of some of her earliest works Published on the occasion of her 2015 solo exhibition at David Zwirner **Bridget Riley Works 1981-2015** presents paintings from the last thirty four years of her career including images of Rajasthan a wall painting previously shown in Germany and England and exhibited for the first time in New York These dynamic reproductions begin with stripe paintings from the 1980s and end with a coda of sorts a return to black and white that ties back to her work from the 1960s but bear traces of Riley's deep engagement with color in the interim As critic Ric de Chasse puts it in his essay for Riley's 2015 catalogue with Galerie Max Hetzler The black and white paintings not only enter into a dialogue with the 1960s works but take stock of every painting experience Riley has created during a long career Also included is a selection of the artist's works on paper taken together these complementary aspects of her practice over the past four decades reveal the astonishing variety she has achieved by developing and rediscovering different forms An essay

by art historian Richard Schiff helps contextualize the developments in Riley's practice since the early 1980s and further emphasizes her influence and lineage as a painter. Rounding out the publication are biographical notes by Robert Kudiela, one of the artist's foremost critics. With a career spanning six decades, Bridget Riley remains one of the most exciting painters today, and *Bridget Riley Works 1981-2015* presents a selection of works from what may be her richest period to date.
