Remember Fifth November:

Remember, Remember the Fifth of November J. A. Sharpe, 2005 Guy Fawkes is amongst the most celebrated figures in English history and Bonfire Night is a remarkably long lived and very English tradition But why is it that in a modern multicultural society people still turn out every November to commemorate a planned act of treason and terrorism which was defeated four hundred years ago Had the Gunpowder Plot succeeded and the Catholics managed to blow up the king the royal family and Parliament English history would have been shaped by a terrorist act of unprecedented proportions shattering in terms of both the damage inflicted and its propaganda value James Sharpe examines the fateful night of 5 November 1605 and the tangled web of religion and politics which gave rise to the plot He uncovers how celebration of the event and of Guy Fawkes the one gunpowder plotter everyone remembers has changed over the centuries Today although most of the religious connotations have long been ignored the bonfires remain The festival created in 1605 by the state and church to commemorate a failed act of Catholic terrorism now provides an annual raison d'être for the firework industry and an annual source of concern for Britain's cat owners Every year the crowds gather the bonfires are lit and the firework displays dazzle again Interestingly however the tradition is fast changing and reverting to the pre Gunpowder Plot festival now much Americanised of Halloween **Remember Remember The Fifth of November** Deborah Webb, 2018-07-13

We Are What We Remember Laura Mattoon D'Amore, Jeffrey Meriwether, 2013-01-16 Commemorative practices are revised and rebuilt based on the spirit of the time in which they are re created Historians sometimes imagine that commemoration captures history but actually commemoration creates new narratives about history that allow people to

interact with the past in a way that they find meaningful As our social values change race gender religion sexuality class our commemorations do too We Are What We Remember The American Past Through Commemoration analyzes current trends in the study of historical memory that are particularly relevant to our own present our biases our politics our contextual moment and strive to name forgotten overlooked and denied pasts in traditional histories Race gender and sexuality for example raise questions about our most treasured myths where were the slaves at Jamestowne How do women or lesbians protect and preserve their own histories when no one else wants to write them Our current social climate allows us to question authority and especially the authoritative definitions of nation patriotism and heroism and belonging How do we uncommemorate things that were mis commemorated in the past How do we repair the damage done by past commemorations The chapters in this book contributed by eighteen emerging and established scholars examine these modern questions that entirely reimagine the landscape of commemoration as it has been practiced and studied before **Supreme Court**

forgotten war for some Americans is an aching memory for China. With over a million casualties out of the three million soldiers sent into battle, that war looms as large for the People's Republic of China (PRC) barely a year old when North Korea invaded the South as World War II does for most other countries. It was the first international war fought by the Chinese Communist regime to halt counterrevolution; it was also a war that the Chinese fully expected to win by virtue of not only superiority of numbers but also their soldiers' superior political quality. This book presents a mosaic of memoirs by key Chinese military commanders from that war, drawing not only on their personal papers but also on still classified archives and on Chinese language sources unavailable in English. It offers an uncensored, behind-the-scenes story of the Communist campaign from the decision to intervene through the truce negotiations that disclose new information on such facets of the war as strategy and tactics, use of propaganda and mobilization of the Chinese population. It also reveals the generals' concerns about the possible use of nuclear force and the alleged use of biological and chemical weapons by the United States. The book contains a wealth of new materials on the Chinese intervention, including combat operations, logistics, political control, field command and communications. Among those whose recollections are recorded, then acting Chief of Staff Nie Rongzhen reveals how party leadership decided on intervention. Commander in Chief Peng Dehuai provides personal accounts of major battles and communications with Mao, and General Yang Dezhi shares secrets of Chinese military strategy and tactics, discussing how the army orchestrated each battle to contend with the better equipped UN forces. The volume also features an updated short history of the PRC's conduct of the war based on Chinese sources, plus rare photos from Chinese archives that put readers behind the lines from the Chinese side. Mao's *Generals Remember Korea* demonstrates that the PRC continues to draw military, diplomatic and strategic lessons from the war it fought fifty years ago with the world's most powerful military force. It offers valuable insight into the Chinese way of war and the military mind of Mao that will be a rich resource for Asian and military scholars.
