

RENAULT CARD: deadlocking

If the vehicle is equipped with a deadlocking function, this allows you to lock the opening elements and to prevent the doors from being unlocked using the interior handles (for example, by breaking the window and then trying to open the door from the inside).

Never use deadlocking if someone is still inside the vehicle.

To activate deadlocking

You can choose between two deadlocking activation modes:

- press button 2 twice in quick succession;
- or, press the button on the driver's door handle 2 times in quick succession.

The hazard warning lights flash five times to indicate locking.

To deactivate deadlocking

Unlock the vehicle using button 1 on the RENAULT card.

The hazard warning lights flash once to indicate that the doors have been unlocked.

Activating deadlocking also automatically closes the windows and/or the electric sunroof, on equipped vehicles.

After activating the deadlocking function using button 2, remote locking and unlocking in hands-free mode are deactivated.

To reactivate the "hands-free" mode, reset the vehicle.

friends online dating makes a clear distinction between social and sexual sociability and renders dating much more discrete Apparently banal this privatizing feature is fundamental for understanding both the success and the nature of digital matchmaking Bergstr m also sheds light on the persisting inequalities of intimate life showing that online dating is neither free nor fair it has its winners and losers and it differs significantly according to gender age and social class Drawing on a wide range of empirical material this book challenges what we think we know about online dating and gives us a new understanding of who why and how people go online to seek sex and love **Deutsche Nationalbibliographie** ,1990
