Traveler Seth Kugel is one of our most internationally beloved travel writers. With the initial publication of *Rediscovering Travel*, he took the corporate modern travel industry to task, determined to reignite an age-old sense of adventure that has virtually been vanquished by the spontaneity-obliterating likes of Google Maps, TripAdvisor, and Starwood points. Now in travel-friendly paperback, this funny, inspiring, and well-crafted companion from Associated Press reveals how to make the most of new apps and other digital technologies without being shackled to them. Writing for the tight-belted tourists and the first-class flyer, the eager student and the comfort-seeking retiree, Kugel shows all readers not only where to look but how. Samantha Brown promises that we too can rediscover the joy of discovery. Travel is not about the destination but the experience. That's what makes it so appealing, so addictive, and that's what makes *Rediscovering Travel* so necessary. Peter Greenberg

**Investment and British Trade Unionism** Hitoshi Suzuki, 2020-11-23 This book revisits the long contested negotiation between the Thatcher administration and Nissan for the latter's first green field plant in Europe. From the very beginning the plant took Britain's EC/EU membership and tariff-free access to the single market as a token. A considerable amount of aid including component supplies was provided to attract Japanese investment and to prevent its transfer to the continent. The successful launch of Sunderland highlighted improved Anglo-Japanese relations and put an end to the Japan EC/EU trade conflict. But the price was paid by Nissan's slump and fall and by trade unions in both countries failing to keep counterchecks on management. Brexit and the fall of Carlos Ghosn were a double blow to Anglo-Japanese relations which are in a state of drift and need redefinition.

**Platforms, Markets and Innovation** Annabelle Gawer, 2011-01-01 In her pioneering book *Platform Leadership* with Michael Cusumano, Gawer gave us the strategy of building coalitions of customers, suppliers and complementors. Now she brings together a number of the leading researchers in the area of platform strategy to give us a book that will be a key reference for both practitioners and academics. Henry Chesbrough, University of California, Berkeley, US. Annabelle Gawer's *Platforms, Markets and Innovation* is the first serious exploration of the critical but subtle role that platforms play in business society and our personal lives. As digital technologies penetrate every nook and cranny of the world around us, we rely on platforms to both help us use the new technologies as well as to organize new markets of innovation that add applications on top of the platforms and make them far more valuable. Dr. Gawer's excellent book is designed to help us understand the mysterious nature of platforms. It brings together the insights of twenty-four experts around the world who contributed to the fourteen chapters of the book. Dr. Gawer's book is invaluable to anyone trying to understand the nuanced nature of platforms and their implications for the evolution of innovation in the 21st century. Irving Wladawsky-Berger, IBM Academy of Technology, US. The emergence of platforms is a novel phenomenon impacting most industries, from products to services. Industry platforms such as Microsoft Windows or Google embedded within industrial ecosystems have redesigned our industrial landscapes, upset the balance of power between firms, fostered innovation and raised new questions on competition and innovation. Annabelle Gawer presents cutting-edge contributions from 24 top international scholars from 19 universities across Europe, the USA and Asia from the disciplines of strategy, economics, innovation, organization studies and knowledge management. The novel insights assembled in this volume constitute a fundamental step towards an empirically based, nuanced understanding of the nature of platforms and the implications they hold for the evolution of industrial innovation. The book provides an overview of platforms and discusses governance, management, design and knowledge issues. With a multidisciplinary approach, this book will strongly appeal to
