

Selector lever 1

Display 3 on the instrument panel shows the mode and gear selected.

- 4: P: park
- 5: R: reverse gear
- 6: N: neutral
- 7: D: automatic mode
- 8: manual mode
- 9: zone displaying gearbox mode or gear engaged in manual mode

Operation

With the gear lever 1 in position P, switch on the ignition.

To move out of position P, you must depress the brake pedal before pressing unlocking button 2.

With the foot on the brake pedal (warning light  on the display 3 goes out), move the lever out of position P.

Only engage D or R when the vehicle is stopped, with your foot on the brake and the accelerator pedal released.

Driving in automatic mode

Select position D. In most traffic conditions, you will not have to touch the gear selector lever again; the gears will change automatically at the right time and at the most suitable engine speed because the automatic system takes into account the vehicle load and road contour and adjusts itself to the particular driving style you have chosen.

Economical driving

When driving, always leave the lever in position D, keeping the accelerator pedal lightly depressed to ensure automatic gear changes at a lower engine speed.

Accelerating and overtaking

Depress the accelerator pedal firmly and fully (so that it goes beyond the kickdown point).

This will enable you to change down to the optimum gear within the engine range.

Renault Megane 2015 Engine Manual

Jin-Ying Zhang

Renault Megane 2015 Engine Manual:

Immerse yourself in heartwarming tales of love and emotion with Explore Love with is touching creation, **Renault Megane 2015 Engine Manual** .
