40"/46"/52" NEC Professional-Grade LCD Display/Mounting System/Cabling/Power Suppression

NEC Display Solutions' complete 2x2 LCD TileMatrix Video Wall Solutions provide for an all-in-one, easy-to-configure solution that is ideal for dynamic digital signage, information display and command & control applications.

Exclusive TileMatrix and TileComp™ technologies, combined with the thin-bezel design of NEC large-screen displays, provide for a near seamless video wall without the need for additional third-party equipment. When compared to 82"-108" single-screen displays, NEC's video wall solutions deliver a more cost-effective and easier-to-transport and install alternative for your application.

LCD technology alleviates downfalls affiliated with rear-projection and plasma displays. This includes improved color and brightness uniformity as well as full HD resolution (X461UN WXGA native) for stunning video clarity. In addition, one need not worry about the added expense of costly replacement lamps.

## Solution Features and Benefits

**TileMatrix** allows you to build video walls up to 100 displays using only one video source. This helps avoid the hassle and extra costs of using splitters or connecting monitors to multiple sources.

**TileComp** works in tandem with TileMatrix to compensate for the bezel width and create a more seamless video wall.

**Copy function** allows the user to apply the settings from one display to all others in the RS-232 daisy chain, reducing setup time and saving money.

**Thin-bezel design** provides for some of the smallest bezel widths in the industry (7.3mm screen-to-screen width for X461UN and 33mm for P401, P461 and P521).

**Industry's most extensive display control**, including RS-232, Ethernet connectivity, NaVSet software and DDC/CI standard.

**Rapid Response™ technology** delivers virtually uninterrupted, undistorted viewing of high-speed, full-motion video.

**Thermal protection** starts with an extra thermal layer on the professional-grade display panel to diffuse heat followed by fan-based technology specially designed to work in both landscape and portrait modes and be controlled locally or remotely.

**Real-time clock** allows for content scheduling and monitor sleep/wake management, improving energy savings and extending display life.

**NaVSet™ software** utilizes the monitor's advanced control and diagnostics capabilities to provide AV and IT professionals with remote access to monitor settings over their existing network. This can be used in combination with daisy chain-enabled RS-232C to control individually addressable displays.

**Mounting system** is compact and slim, which allows the displays to be mounted as close to the wall as possible (Digital Factory PerfectAlign for P401, P461 and P521; Chief 2x2 wall mount for X461UN).

**Overframe Bezel Kit** completes your solution by offering a "finished & framed" look (two kits included with the X461UN-TA0X4).

**Remote Control and Ambient Light Sensor Kit** provides the entire video wall with one sensor that detects ambient light and delivers simple remote control functionality (included with the X461UN-TM0X4).

**Extrex® cables** are premium quality and provide uncompromising high resolution signal distribution and multipurpose interconnectivity solutions for a wide range of professional, commercial, residential, themed entertainment and live event AV environments.

**Tripp Lite surge suppressor**, featuring six outlets and \$50,000 ultimate lifetime insurance, prevents system crashes, reboots and performance problems.
