Regional

Leadership in Post-Soviet Eurasia Irina Busygina, Svetlana Krivokhizh, 2023-05-22 This book explores power in international relations in a world characterized by the growing competition of major powers for smaller nations. Focusing on the major powers and smaller countries of Eurasia, it argues that power in international relations is different from coercion and is rather a social contract between a leader state and follower states where reciprocity is key and where leadership relationships cannot be adequately explained by focusing solely on the leader. It challenges the perception that genuine regional leadership is quite common, contending instead that it is rare that much more often major powers make claims for leadership and that regional leadership does not indicate the status of a particular state but rather the social role of the leader which is recognized by its followers, a role which is always relative and based on communication and constant interaction with followers. The book highlights the important role followers play in recognizing regional power, the importance for a state's regional leadership strategy in creating and holding a valuable position attractive for followers and delivering greater value to followers compared to other potential leaders.

The International Politics of the Armenian-Azerbaijani Conflict Svante E. Cornell, 2017-01-20 This book frames the Armenian-Azerbaijani conflict over Nagorno-Karabakh in the context of European and international security. It is the first book to focus on the politics of the conflict rather than the dispute itself. Since their emergence twenty years ago, this and other frozen conflicts of Eurasia have been affected by transformations in European security and many ways absorbed into an ever fiercer geopolitical struggle for influence. The wars in Georgia and Ukraine brought greater attention to some unresolved conflicts but not to the conflict between Armenia and Azerbaijan. As the contributors to this volume argue, the conflict merits much greater European attention for several reasons: it is on a path of escalation, existing mediation regimes are dysfunctional, and as both Georgia and Ukraine have showed, any outbreak of serious fighting will force the EU to respond. This book thus explains the interlocking interests of Russia, Turkey, Iran, the EU, and the United States in the conflict and analyzes the negotiation process and the conflict's international legal aspects.

Armenia, the Regional Powers, and the West A. Mirzoyan, 2010-04-12 This work represents the first systematic study of Armenia's foreign policy during the post-independence period between 1991 and 2005. It explores four sets of relationships with Armenia's major historical partners: Russia, Iran, Turkey, and the West. Europe and the United States.

The Armenia-Azerbaijan Conflict Michael P. Croissant, 1998-07-23 Of all the violent disputes that have flared across the former Soviet Union since the late 1980s, the Armenia-Azerbaijan conflict is the only one to pose a genuine threat to peace and security throughout Eurasia. By right of its strategic location and oil resources, the Transcaucasus has been and will continue to be a source of interest for external powers competing to advance their geopolitical influence in the region. Under such conditions, the possibility will remain for the Armenia-Azerbaijan conflict to reignite and expand to include other powers. The ten-year conflict between Armenia and Azerbaijan has been one of the bloodiest and most intractable disputes to emerge from the breakup of the Soviet Union. Animosity that developed between the Armenians and Azeris under czarist

Russian rule was fueled by the rise of a dispute over Nagorno Karabakh a mountainous region for which both peoples feel an intense nationalistic affinity The attachment of the region to Azerbaijan by Stalin in 1923 became a source of deep resentment for the Armenians and during the rule of Gorbachev a campaign was begun to achieve the peaceful unification of Armenia and Karabakh Azerbaijan resisted the move as a threat to its territorial integrity and clashes that broke out soon escalated into a full scale war that outlived the USSR itself Although a cease fire has been observed since May 1994 a peaceful settlement to the conflict has been elusive Meanwhile by right of both the strategic location and resources and the unique security characteristics of the Transcaucasus major external powers Russia Turkey and Iran have sought to influence the dispute according to their geopolitical interests With the growth of interest in the oil riches of the Caspian Sea and the increasing engagement of Western countries including the United States the risks and implications of renewed violence between Armenia and Azerbaijan will grow This major study will be of interest to students scholars and policymakers involved with international relations military affairs and the Transcaucasus
