Mandira Sharma, Seira Tamang, 2016-10-25 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume focus on Nepal which though not directly colonized has not remained immune from the influence of colonialism in its neighbourhood In addition to home grown feudal patriarchal structures the writers in this volume clearly demonstrate that it is the larger colonial and post colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in the country through legal systems medical regimes and social institutions The period after the 1990 democratic movement the subsequent political transformation in the aftermath of the Maoist insurgency and the writing of the new constitution has seen an increase in public discussion about sexual violence The State has brought in a slew of legislation and action plans to address this problem And yet impunity for perpetrators remains intact and justice

elusive What are the structures that enable such impunity What can be done to radically transform these How must States understand the search for justice for victims and survivors of sexual violence This volume addresses these and related issues Published by Zubaan *A Clinical Guide to the Treatment of the Human Stress Response* George S. Everly, Jr., Jeffrey M. Lating, 2019-03-05 This comprehensive update of the now classic text applies the most current findings across disciplines to the treatment of pathogenic human stress arousal New and revised chapters bring together the art and science of intervention based in up to date neuroscience starting with an innovative model tracing the stress to disease continuum throughout the systems of the human body The authors detail the spectrum of physiological and psychological treatments for the stress response including cognitive therapy neuromuscular relaxation breathing exercises nutritional interventions and pharmacotherapy They also assess the strengths and limitations of widely used measures of the stress response and consider the value of personality factors cultural considerations and resilience in stress mediation Included in the coverage The anatomy and physiology of the human stress response Advances in neuroscience implications for stress Crisis intervention and psychological first aid Neurophysiological rationale for the use of the relaxation response Physical exercise and the human stress response The pharmacological management of stress reactions Disaster Mental Health Planning Cultural Awareness and Stress The Fourth Edition of *A Clinical Guide to the Treatment of Human Stress Response* offers readers a dual perspective exceedingly useful in examining the origins of the stress response and in preventing and treating the response itself This rich integrative volume will join its predecessors in popularity among practitioners and students across disciplines and specialties **Anthropological Perspectives on Education in Nepal** Karen Valentin, Uma Pradhan, 2023 This volume illuminates educational transformations and avenues of learning in the context of wider social and political changes in Nepal Modern Dharma Paola Tiné, 2025-04-08 How middle class families in Nepal pursue well being in a rapidly changing social landscape Modern Dharma asks how middle class Nepalis pursue an ethical good life in a rapidly evolving society In the aftermath of a decade long civil war that raged between 1996 and 2006 social change accelerated in Nepal as the shift to a market economy and the spread of education and media built the foundation for a new middle class to form As it did tension built between the expression of individual will and the expectation to submit to traditional social hierarchies Today people in Nepal are confronted by the need to restructure moral codes and to care for their families while at the same time they face intense pressure to keep up with the cost of education and to find work in an increasingly competitive labor market Amidst these changes people often describe their choices as falling under the broader goal of pursuing well being Modern Dharma investigates how and why amidst often conflicting priorities people make choices in pursuit of well being Anthropologist Paola Tiné investigates why many large families separate into smaller nuclei while others maintain intra generational homes She asks why and how young people seek the support of their friends while often hiding private desires from their parents And she investigates the ways that marriage choices and friendship relationships help

people navigate the ongoing tangible difficulties engendered by socioeconomic change By delving into the intricacies of domestic lives among a growing middle class Modern Dharma works to center the household and kinship relationships as the places where broader global transitions are reflected resisted and negotiated Providing a new perspective on moral personhood in South Asia this book ultimately sheds new light on the centrality of kinship relationships in initiating and shaping social change

Insurgent Play Duncan McDuie-Ra,2025-07-08 Insurgent Play Social worlds of urban disruption explores play as a transgressive expression that counters the existing urban order neoliberal authoritarian militarised Insurgent play is disruptive yet through disruption it brings social worlds into being undergirds global subcultures and overcomes hostile urban environments characterised by ever diminishing spaces for free expression Acts of insurgent play are claims on space lasting from brief moments to years animating patches of the city designed for commercial industrial and logistical imperatives Even in public spaces designed for leisure and play insurgent play brings different expressions at different speeds transgressing designated uses and bodily expectations Through insurgent play people find belonging in the city especially for those excluded from other spaces based on race class sexuality and citizenship

As such stories of insurgent play are stories of alternative ways of inhabiting cities stemming from the widespread human desire and need for play for joy and for sociality Insurgent Play draws upon examples from street skateboarding Street skateboarding disrupts the city in the pursuit of play enlivens patches of space through temporary claims and initiates encounters with authorisers property owners and citizens gravid with hostility with instants of wonder Insurgence is a way of being and the desire for insurgent play cannot be placated by better urban planning or formal expertise Nor will multiplying designated play spaces creative precincts and flexible public spaces stop people seeking out space to create their own worlds of disruption The book makes four arguments First insurgent play is bodily expression that can challenge disrupt and transgresses dominant ways of city making Second insurgent play takes us to parts of the urban landscape that we might not otherwise go politics we might not otherwise recognise and encounters we might otherwise overlook Third claims on the city made through insurgent play enliven urban space through transformative power In this way these claims territorialise patches of the built environment intended for other uses Last insurgent play space is generated from below never above Insurgent play shapes and is shaped by identities that position adherents in opposition to prevailing urban orders
