*Social innovation in health monitoring and evaluation framework*, 2021-05-17

This framework was developed in partnership with the Social Innovation in Health Initiative (SIHI) a network convened by the TDR and partners to advance social innovations globally

The framework involved a three step process including an open crowdsourcing call for ideas described here a scoping review a series of multisectoral discussions and an adapted Delphi process

Crowdsourcing is an approach in which a group of individuals attempt to solve all or part of a problem then implement exceptional solutions in the community

The purpose of this document is to provide a monitoring and evaluation framework for social innovations in health

Supporting monitoring and evaluation will help to democratize research and engage more stakeholders to work in partnership with researchers

The evidence generated will help us to understand effectiveness and the potential for sustainability
