*Historical Dictionary of Lesotho* John Aerni-Flessner, Charles Fogelman, Nthabiseng Mokoena-Mokhali, 2023-11-30 Lesotho's history has long been defined by its enclave status within South Africa but it is a hard fought and hard won status that helps unite Basotho through the shared history of struggle against colonial rule in the region Since the end of apartheid in 1994 Lesotho's status as a separate entity has been called into question though the fierce national pride built through centuries of resistance to outside rule has mitigated against any serious discussions of incorporating Lesotho into South Africa Still the political instability and lack of a flourishing domestic economy have made life difficult for the majority of Basotho and could call into question the viability and legitimacy of the state in the eyes of its citizens if it cannot enact significant reforms in the coming decades Historical Dictionary of Lesotho Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Lesotho

**The United Nations Global Compact and the Encyclical Laudato Si** Oliver F. Williams, 2023-04-21 In April 2016 the Center for Ethics and Religious Values in Business of the Mendoza College of Business at the University of Notre Dame with the United Nations Global Compact UNGC Office convened a group of scholars and business leaders to discuss the Encyclical Laudato Si LS and the UN Sustainable Development Goals SDGs The articles in this special issue are from that conference the hope is that they will provoke your thinking and lead to new action to make the world a better place How is it that the secular United Nations and the religious Vatican have a common vision for business At root this common vision for business flows from a common vision for society as a whole For business flowing from this common vision is a common understanding of the purpose of business Catholic social thought has always taught that the single minded focus on making money in business can never be acceptable The purpose of business is to create sustainable value for stakeholders and that value is not exclusively monetary value

**An Introduction to Transnational Criminal Law** Neil Boister, 2018-04-19 National borders are permeable to all types of illicit action and contraband goods whether it is trafficking humans body parts digital information drugs weapons or money Whilst criminals exist in a borderless world where territorial boundaries allow them to manipulate different markets in illicit goods the authorities who pursue them can remain constrained inside their own jurisdictions In a new edition of his ground breaking work Boister examines how states must cooperate to tackle some of the greatest security threats in this century so far analyses to what extent vested interests have determined the course of global policy and law enforcement and illustrates how responding to transnational crime itself becomes a form of international relations which reorders global political power and becomes at least in part an end in itself Arguing that transnational criminal law is currently geared towards suppressing criminal activity but is not as committed to ensuring justice Boister suggests that it might be more strongly influenced by individual moral panics and a desire for criminal retribution than an interest in ensuring a proportional response to offences protection of human rights and the preservation of the rule of law

of consequence A country of slavery and of Indian wars There s much truth in that vision But if you know where to look you can uncover a different history one of vibrant resistance one that s been mostly forgotten This Radical Land recovers that story Daegan Miller is our guide on a beautifully written revelatory trip across the continent during which we encounter radical thinkers settlers and artists who grounded their ideas of freedom justice and progress in the very landscapes around them even as the runaway engine of capitalism sought to steamroll everything in its path Here we meet Thoreau the expert surveyor drawing anticapitalist property maps We visit a black antislavery community in the Adirondack wilderness of upstate New York We discover how seemingly commercial photographs of the transcontinental railroad secretly sent subversive messages and how a band of utopian anarchists among California s sequoias imagined a greener freer future At every turn everyday radicals looked to landscape for the language of their dissent drawing crucial early links between the environment and social justice links we re still struggling to strengthen today Working in a tradition that stretches from Thoreau to Rebecca Solnit Miller offers nothing less than a new way of seeing the American past and of understanding what it can offer us for the present and the future

*The NHS and Contemporary Health Challenges From a Multilevel Perspective* Dalingwater, Louise, 2020-06-26 The National Health Service or NHS is the United Kingdom s national healthcare system It oversees the public s health and ensures the medical wellbeing of the population of the UK Governance network processes are complex because of the different nature of agendas and strategies of actors involved in health but increasingly because of the link between social and healthcare delivery recent initiatives to provide a joined up or integrated approach have been presented However the extent of joined up governance processes in the National Health Service is rather uneven So far reforms to try to improve the running of the NHS through the introduction of market mechanisms or increased decentralization have only served to exacerbate such tensions and resulted in further fragmentation of the public health system The NHS and Contemporary Health Challenges From a Multilevel Perspective illustrates the complexities of governing public health services that are part of the NHS and takes an innovative approach by examining public health provision through a multiscalar lens which reveals significant limits of the current governance model The book raises the various challenges that clinical staff public authorities and the general public face in the provision of healthcare to uphold core values inherent in health systems While highlighting topics including health governance patient satisfaction and public health this book is ideally designed for policymakers government officials healthcare administrators hospital managers healthcare researchers medical professionals and students

**Making Medicines Affordable** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Ensuring Patient Access to Affordable Drug Therapies, 2018-03-01 Thanks to remarkable advances in modern health care attributable to science engineering and medicine it is now possible to cure or manage illnesses that were long deemed untreatable At the same time however the United States is facing the vexing challenge of a seemingly uncontrolled rise in the cost of health care

Total medical expenditures are rapidly approaching 20 percent of the gross domestic product and are crowding out other priorities of national importance. The use of increasingly expensive prescription drugs is a significant part of this problem, making the cost of biopharmaceuticals a serious national concern with broad political implications. Especially with the highly visible and very large price increases for prescription drugs that have occurred in recent years, finding a way to make prescription medicines and health care at large more affordable for everyone has become a socioeconomic imperative. Affordability is a complex function of factors including not just the prices of the drugs themselves but also the details of an individual's insurance coverage and the number of medical conditions that an individual or family confronts. Therefore, any solution to the affordability issue will require considering all of these factors together. The current high and increasing costs of prescription drugs coupled with the broader trends in overall health care costs is unsustainable to society as a whole. Making Medicines Affordable examines patient access to affordable and effective therapies with emphasis on drug pricing, inflation in the cost of drugs and insurance design. This report explores structural and policy factors influencing drug pricing, drug access programs, the emerging role of comparative effectiveness assessments in payment policies, changing finances of medical practice with regard to drug costs and reimbursement, and measures to prevent drug shortages and foster continued innovation in drug development. It makes recommendations for policy actions that could address drug price trends, improve patient access to affordable and effective treatments, and encourage innovations that address significant needs in health care.

**CAIP 2021** Philipp Wicke, Marta Ziosi, João Miguel Cunha, Angelo Trotta, 2021-12-13 This book constitutes the thoroughly refereed proceedings of the 1st International Conference on AI for People Towards Sustainable AI CAIP 21 held Virtually on November 20-24, 2021. This event organized by the non-profit association AI for People aims to provide a platform for people to present, learn, and discuss the use of Artificial Intelligence for the societal good, addressing its benefits as well as its risks. In this year's edition, we focus on Sustainable AI as a movement to foster change towards greater ecological integrity and social justice in the entire life cycle of AI systems. The 11 full papers and 1 short paper presented were carefully reviewed and selected from 27 submissions. The presentations covered multiple research fields like Computer Science, Artificial Intelligence, Social Science, and Philosophy, brought the discussion on how to shape Artificial Intelligence technology around human and societal needs. In order to foster this idea, this conference hoped to narrow the gap between civil society and technical experts.

Heartbreaker James Styan, 2017-12-05 In this new biography of Chris Barnard, we not only learn about the life of South Africa's most famous surgeon from his Beaufort West childhood through his studies locally and abroad to his prominent marriages and divorces, but James Styan also examines the impact of the historic heart transplant on Barnard's personal life and South African society at large, where apartheid legislation often made the difficulties of medicine even more convoluted. The role of black medical staff like Hamilton Naki is explored, as is the intense rivalry that arose between other famous heart surgeons and Barnard. How did Barnard manage to beat them all in this race of life and death? How much did his famous

charisma have to do with it all And in the light of his later years his subsequent successes and considerable failures what is Barnard s legacy today Styran covers it all in this fascinating new account of a real heartbreaker Competition Law in South Africa Precious N.
